The Payoff Principle Alan Zimmerman,2015-03-03 Where do you hope to go with your life, your career, and your relationships? How will you muster the energy to keep on keeping on, in the good times and the bad? What skills do you have to learn—and then use—to make sure you get the payoffs you really want in your professional life and your personal life? The problem with so many positive-thinking books and self-help routines is that they don't give you the whole formula. The Payoff Principle gives you that formula—Purpose + Passion + Process = Payoff—and then works as your guidebook, teaching you how to apply the formula to achieve success at work, at home, and everywhere you go. When you find purpose in what you do, exhibit passion for the outcome, and master the process to make it happen, you produce the payoffs you want, need, and deserve. Plenty of people have done exactly that, whether consciously and deliberately or accidentally and luckily. But, you don't have to depend on luck anymore. You have a formula for getting what you want. You have a practical set of strategies guaranteed to deliver greater happiness and success than you've ever experienced. All you have to do now is read The Payoff Principle to learn how to implement the formula to experience the new-and-complete you.

You Are Awesome Neil Pasricha,2019-11-05 #1 international bestseller Publishers Weekly bestseller *The Globe and Mail* (Toronto) *The Toronto Star* bestseller *The Vancouver Sun* bestseller From Neil Pasricha—New York Times, million-copy bestselling author of *The Book of Awesome* series and *The Happiness Equation*, thought leader for the next generation, and one of the most popular TED speakers in the world—comes a revelatory and inspiring book that will change the way we view failure and help us build resilience. We are lucky. For most of us, famine, plague, economic depression, and other life-threatening catastrophes are the stuff of history books. We're living in an era with the highest-ever rates of longevity, education, and wealth. Cars drive us home as our phones entertain us before we arrive to food delivered to the front door. We have it all! But there's just one side effect. We no longer have the tools to handle failure...or even perceived failure. When we fall, we lie on the sidewalk crying. When we spill, we splatter. When we crack, we shatter. We are turning into an army of porcelain dolls. A rude email from the boss means calling in sick. Only two likes on our post means we don't have friends. Cell phones show us we're never good enough. Yesterday's butterflies are tomorrow's panic attacks. Record numbers of students have clinical anxiety. And what about depression, loneliness, and suicide? All rising! What do we desperately need to learn? RESILIENCE. And we need to learn it fast. Read *You Are Awesome* to learn: • The single word that keeps your options open after failure • What every commencement speech gets wrong • 3 ways to dramatically accelerate your ability to learn and adapt • The 2-minute morning practice that helps eliminate worry • Why you need an Untouchable Day (and how to get one) • and much, much more... Because the truth is, you really are awesome.

The Last Lecture Randy Pausch,2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

God Didn't Do It; He Only Signed Off On It Christiana I. Chineme,2010-03-01 As humans, things happen to us sometimes that we cannot fully understand. We desire to explain them when from human perspective there's no explanation that really exists. Our perplexion at things of that nature are not just about when they happen to us but also the things we witness in the world around us. They oftentimes shake the foundations of our faith in God to the core. But as much as not knowing hurts, at no time should our reaction be to accuse God for things we don't understand. Rather, we should know that God is not always the architect of all our problems and that He might not always save us from people that live to harm us or bless us the way we want because we take a stand with Him. His promise however is one thing and that is that He'll work it all out for HIS OWN ENDS even the wicked for a day of disaster Proverbs 16:4b. However your pain occurred, God's declared intentions are that He'll use all of your problems any which way they present to work out His will for your life. The deaths of some of the people that went before us is proof that for reasons best known to Him, God at times chooses not to deliver people that take a stand with Him. And it's not because He hated such people but because of what He already planned to use the situation for.
