## Hal Roth

**Sailing Alone Around the World** Joshua Slocum,2006-08-31 Joshua Slocum's epic solo voyage around the world in 1895 in the 37 foot sloop *Spray* stands as one of the greatest sea adventures of all time. This work offers Slocum's account of his epic voyage. It is intended for admirers of his legendary achievement.

[The First Voyage Around the World, 1519-1522](#) Antonio Pigafetta,2007-01-01 The First Voyage around the World is also a remarkably accurate ethnographic and geographical account of the circumnavigation, and one that has earned its reputation among modern historiographers and students of the early contacts between Europe and the East Indies.

*Brave Or Stupid* Tracey Christiansen,Yanne Larsson,Carl Andersson,2014

*Maiden Voyage* Tania Aebi,2012-11-06 What begins as the sheer desire for adventure turns into a spiritual quest as a young woman comes to terms with her family, her dreams, and her first love. Tania Aebi was an unambitious eighteen-year-old, a bicycle messenger in New York City by day, a Lower East Side barfly at night. In short, she was going nowhere—until her father offered her a challenge: Tania could choose either a college education or a twenty-six-foot sloop. The only catch was that if she chose the sailboat, she'd have to sail around the world—alone. She chose the boat, and for the next two and a half years and 27,000 miles, it was her home. With only her cat as companion, she discovered the wondrous beauties of the Great Barrier Reef and the death-dealing horrors of the Red Sea. She suffered through a terrifying collision with a tanker in the Mediterranean and a lightning storm off the coast of Gibraltar. And, ultimately, what began with the sheer desire for adventure turned into a spiritual quest as Tania came to terms with her troubled family life, fell in love for the first time, and—most of all—confronted her own needs, desires, dreams, and goals...

**How to Sail Around the World** Hal Roth,2003-10-20 A new classic from one of the world's most respected sailing authors More than 35 years ago, Hal Roth quit his job as a journalist and went sailing. Since then, he's logged more than 200,000 sea miles. Along the way, Roth also has authored eight voyaging classics, including the 1978 bestseller *After 50,000 Miles*. Taking that book as its starting point, this handsome new volume incorporates the new technologies and discoveries of the last quarter century along with another 150,000 miles of experience. A compendium of mature, time-tested sea wisdom from one of the world's most respected sailing writers, *How to Sail Around the World* will tell the reader: How to choose and equip a sailboat for long-distance cruising, with an emphasis on simplicity and a modest budget How to plan and conduct a

voyage anywhere in the world How to master the arts of navigation, anchoring, and daily life aboard in exotic places How to cope with storms at sea--the most complete and authoritative treatise on this critical topic ever published

**True Spirit [sound Recording]** Jessica Watson,2015 At only 16 years of age Jessica Watson became the youngest person to sail solo, unassisted and non-stop around the world. In her very own words, she tells us about her childhood, her influences, her years of planning and her incredible journey. She shares how she battled with sleep deprivation, gale-force winds, mountainous seas, whales and icebergs and what it was like to hold firm against the solitude of 210 days at sea.

World Cruising Routes Jimmy Cornell,2014-01-01 A guide to nearly 1,000 sailing routes covering all the oceans of the world, geared specifically to the needs of cruising sailors. It advises on the winds, currents, regional and seasonal weather, and optimum times for individual routes, plus over 6,000 waypoints.

**One Girl One Dream** Laura Dekker,2014-11-01 The amazing autobiographical account of the youngest ever solo circumnavigation of the Earth. First time in English! If you want to see the other side of the world, you can do two things: turn the world upside down, or travel there yourself. In 2012, at the age of just 16, Laura Dekker became the youngest sailor ever to single-handedly circumnavigate the globe. In realising her long-held dream, she had not only braved the wild oceans and long weeks of solitude at sea, but also the doubts and sometimes hostile resistance of officials. In this remarkable account of her incredible journey - for the first time in English - Laura describes in her own words what it is like to sail solo around the world, and the determination it takes to do it at such a young age. Exciting, awe-inspiring and inspirational, this is a real-life adventure for readers of all ages.

**Facing Fear** Lisa Blair,2021-02-01 Facing Fear is the inspiring true story of Lisa Blair, who on 25 July 2017 became the first woman to sail solo around Antarctica. She very nearly didn't live to tell the tale. Seventy-two days into her circumnavigation, when Lisa was more than 1000 nautical miles from land, the mast of Climate Action Now came crashing down in a ferocious storm. In freezing conditions, Lisa battled massive waves and gale-force winds, fighting through the night to save her life and her boat. Following her ordeal, Lisa relied on her unbreakable spirit to beat the odds and complete her world record. With unwavering focus and determination, she sailed home, completing her journey after 183 days. This is the story of her remarkable voyage.

*The Strange Last Voyage of Donald Crowhurst* Nicholas Tomalin,Ron Hall,2016-12-29 'A masterpiece.' New Yorker 'Wholly riveting, brilliantly researched.' Evening Standard 'A meticulous investigation into the seeds of disaster... fascinating, uncomfortable reading.' Sunday Times In 1968, Donald Crowhurst was trying to market a nautical navigation device he had developed, and saw the Sunday Times Golden Globe round the world sailing race as the perfect opportunity to showcase his product. Few people knew that he wasn't an experienced deep-water sailor. His progress was so slow that he decided to short-cut the journey, while falsifying his location through radio messages from his supposed course. Everyone following the

race thought that he was winning, and a hero's welcome awaited him at home in Britain. But on 10 July 1968, eight months after he set off, his wife was told that his boat had been discovered drifting in mid-Atlantic. Crowhurst was missing, assumed drowned, and there was much speculation that this was one of the great mysteries of the sea. In this masterpiece of investigative journalism, Nicholas Tomalin and Ron Hall reconstruct one of the greatest hoaxes of our time. From in-depth interviews with Crowhurst's family and friends and telling excerpts from his logbooks, Tomalin and Hall develop a tale of tragic self-delusion and public deception, a haunting portrait of a complex, deeply troubled man and his journey into the heart of darkness.

**Around the World Single-handed** Harry Pidgeon,1989-01-01 Fascinating firsthand narrative recounts author's circumnavigation of the globe in 34-foot sailboat he built himself. Tropical islands, natives, exotic ports, storms, near-shipwreck, many other adventures. 61 photographs.

*A Voyage For Madmen* Peter Nichols,2009-10-13 “An extraordinary story of bravery and insanity on the high seas. . . . One of the most gripping sea stories I have ever read.” — Sebastian Junger, author of *The Perfect Storm* In the tradition of *Into Thin Air* and *The Perfect Storm*, comes a breathtaking oceanic adventure about an obsessive desire to test the limits of human endurance. In 1968 nine sailors set off on the most daring race ever held and never before completed: to single-handedly circumnavigate the globe nonstop. Ten months later, only one of the nine men would cross the finish line and earn fame, wealth, and glory. For the others, the reward was madness, failure, and death. Gorgeously written and meticulously researched by author Peter Nichols, this extraordinary book chronicles the contest of the individual against the sea, waged at a time before cell phones, satellite dishes, and electronic positioning systems. *A Voyage for Madmen* is a tale of sailors driven by their own dreams and demons, of horrific storms, and of those riveting moments when a decision means the difference between life and death.

**Deep Listening** Oscar Trimboli,2017-06-10 Over 55% of your day is spent listening; yet only 2% of us have been trained in how to listen. What is poor listening costing you? Do you rush from meeting to meeting, your head buried in the last conversation you had, without time to think of the next? Or feel frustrated with unproductive discussions where the loudest in the room adds limited insight and drowns out everyone else? We usually think of these situations as communication problems; that we have not spoken our needs correctly or clearly. Yet, conflict, chaos and confusion are the costs of not listening. Many communication and listening books say the most important person in a conversation is the speaker - not true! This pocket-sized guide will help you to reconnect with your innate gift of deep listening, to create the right space to listen to yourself before you listen to others. You'll learn to listen beyond the words that are spoken, to add context and meaning and listen in to what's not being said. *Deep Listening* will help you move from confusion and conflict to thoughtful, insightful and powerful discussions that will transform not just your work, but your whole life.

**438 Days** Jonathan Franklin, 2015-11-17 The miraculous account of the man who survived alone and adrift at sea longer than anyone in recorded history. For fourteen months, Alvarenga survived constant shark attacks. He learned to catch fish with his bare hands. He built a fish net from a pair of empty plastic bottles. Taking apart the outboard motor, he fashioned a huge fishhook. Using fish vertebrae as needles, he stitched together his own clothes. Based on dozens of hours of interviews with Alvarenga and interviews with his colleagues, search and rescue officials, the medical team that saved his life and the remote islanders who nursed him back to health, this is an epic tale of survival. Print run 75,000.

**Kodoku** Kenichi Horie, 2014-03-25 Kodoku is the true story of a young Japanese sailor whose fascination with the art of sailing led him on a solo trans-Pacific journey. First described in a best-selling Japanese book, then an internationally acclaimed motion picture, Kodoku is the full record of the background, conception, preparation, and execution of this daring, yet carefully planned adventure. It includes not only the full text of his original log, but also his supplementary comments, adding detail and highlight to the day-to-day experiences recorded in the log. Also included are charts, plans, and a diagram comparing some of the more noteworthy craft that sailed the open seas in the past. The 61 photographs, including 43 taken by Horie himself during the trip, add a vivid touch to this fascinating story of courage, tenacity, adventure, and humor.

**The Discovery of Jeanne Baret** Glynis Ridley, 2011-12-06 The year was 1765. Eminent botanist Philibert Commerson had just been appointed to a grand new expedition: the first French circumnavigation of the world. As the ships' official naturalist, Commerson would seek out resources—medicines, spices, timber, food—that could give the French an edge in the ever-accelerating race for empire. Jeanne Baret, Commerson's young mistress and collaborator, was desperate not to be left behind. She disguised herself as a teenage boy and signed on as his assistant. The journey made the twenty-six-year-old, known to her shipmates as "Jean" rather than "Jeanne," the first woman to ever sail around the globe. Yet so little is known about this extraordinary woman, whose accomplishments were considered to be subversive, even impossible for someone of her sex and class. When the ships made landfall and the secret lovers disembarked to explore, Baret carried heavy wooden field presses and bulky optical instruments over beaches and hills, impressing observers on the ships' decks with her obvious strength and stamina. Less obvious were the strips of linen wound tight around her upper body and the months she had spent perfecting her masculine disguise in the streets and marketplaces of Paris. Expedition commander Louis-Antoine de Bougainville recorded in his journal that curious Tahitian natives exposed Baret as a woman, eighteen months into the voyage. But the true story, it turns out, is more complicated. In *The Discovery of Jeanne Baret*, Glynis Ridley unravels the conflicting accounts recorded by Baret's crewmates to piece together the real story: how Baret's identity was in fact widely suspected within just a couple of weeks of embarking, and the painful consequences of those suspicions; the newly discovered notebook, written in Baret's own hand, that proves her scientific acumen; and the thousands of specimens she collected, most famously the showy vine bougainvillea. Ridley also richly explores Baret's awkward, sometimes dangerous

interactions with the men on the ship, including Baret's lover, the obsessive and sometimes prickly naturalist; a fashion-plate prince who, with his elaborate wigs and velvet garments, was often mistaken for a woman himself; the sour ship's surgeon, who despised Baret and Commerson; even a Tahitian islander who joined the expedition and asked Baret to show him how to behave like a Frenchman. But the central character of this true story is Jeanne Baret herself, a working-class woman whose scientific contributions were quietly dismissed and written out of history—until now. Anchored in impeccable original research and bursting with unforgettable characters and exotic settings, *The Discovery of Jeanne Baret* offers this forgotten heroine a chance to bloom at long last.

*The New New Thing: A Silicon Valley Story* Michael M. Lewis, 2000 Tells the unlikely story of Silicon Valley through the life of one of its great achievers—Jim Clark, who founded Silicon Graphics and Netscape and may be on the verge of another trillion-dollar company.

**A World of My Own** Robin Knox-Johnston, 2013-05-29 On Friday 14 June 1968 *Suhaili*, a tiny ketch, slipped almost unnoticed out of Falmouth harbour steered by the solitary figure at her helm, Robin Knox-Johnston. Ten and a half months later *Suhaili*, paintwork peeling and rust streaked, her once white sails weathered and brown, her self-steering gone, her tiller arm jury rigged to the rudder head, came romping joyously back to Falmouth to a fantastic reception for Robin, who had become the first man to sail round the world non-stop single-handed. By every standard it was an incredible adventure, perhaps the last great uncomputerised journey left to man. Every hazard, every temptation to abandon the astounding voyage came Robin's way, from polluted water tanks, smashed cabin top and collapsed boom to lost self-steering gear and sheered off tiller, and all before the tiny ketch had fought her way to Cape Horn, the point of no return, the fearsome test of any seaman's nerve and determination. *A World of My Own* is Robin's gripping, uninhibited, moving account of one of the greatest sea adventures of our time. An instant bestseller, it is now reissued for a new generation of readers to be enthralled and inspired.

**Gipsy Moth Circles The World** Francis Chichester, 2015-11-01 From time immemorial, few narrative genres have had the power to so stir the emotions or captivate the imagination as the true account of a lone adventurer's triumph over the titanic forces of nature. Among the handful of such tales to emerge in the twentieth century, one of the most enduring surely must be Sir Francis Chichester's account of his solitary, nine-month journey around the world in his 53-foot ketch *Gipsy Moth IV*. The story of how the sixty-five-year-old navigator singlehandedly circumnavigated the globe, the whole way battling hostile seas as well as his boat's numerous design flaws, is a tale of superhuman tenacity and endurance to be read and reread by sailors and armchair adventurers alike. First published in 1967, just months after the completion of Chichester's historic journey, *Gipsy Moth Circles the World* was an instant international best-seller. It inspired the first solo around-the-world race and remains a timeless testament to the spirit of adventure. Francis Chichester's 1967 singlehanded

circumnavigation set a blazing record for speed. He completed the voyage with just one stop and 226 days at sea. It was an amazing performance; that he was sixty-five years old made it the more so. Chichester then sat down to write one of the great narratives of modern voyaging. A remarkable feat, a moving story of conquest by the unquenchable human spirit, a determined old man's gesture of defiance at the modern world. Such was the voyage; his book is a fine account of it with nothing left out.--Alan Villiers, Saturday Review

*Sailing Into Oblivion* Jerome Rand, 2020-01-23 Large Print Edition of the true account of the 2017-2018 solo non-stop circumnavigation by Jerome Rand aboard the Westsail 32 Mighty Sparrow. A testament to endurance and adventure, this memoir recounts what life is like aboard a small sailboat during a 271 day voyage around the globe, alone and without stopping. One of the greatest challenges of both body and mind, the author will take you onboard during the good times and the bad. As one of only a handful of people to have ever succeed in such a small boat, this story is truly the adventure of a lifetime.
