**Zealots for Souls** Anne Huijbers, 2018-01-22 *Zealots for souls* draws attention to the impact of the Observant reforms within the Order of Preachers, and ambitiously stirs up a broad scope of questions pertaining to the institutional narratives produced within the order between c. 1388 and 1517. Through the narratives and the forms of remembrance they fostered, the author traces the development of contemporary characteristics of the Dominican self-understanding. The book shows the fluid boundaries between the genres (order chronicles, convent chronicles, collective biographies), highlights the interplay between the narrative and the intended audience, addresses the complex question of authorship, and assesses the indebtedness of 'modern' (printed) narratives to older chronicles or biographical collections. The book demonstrates that the majority of the extant institutional narratives were written by Observant Dominicans, who strived for the internal reform of their order. They wrote history to justify their own reform agenda and therefore produced invariably partisan chronicles. The work's method is widely applicable and contributes to further reassessment of institutional narratives as sources for the analysis of religious and intellectual transformations.

**A Military History of the Mediterranean Sea**, 2018-05-07 The Mediterranean has always attracted the imagination of modern historians as the epicentre of great political entities, such as the Egyptians, Greeks, Romans, Arabs, Ottomans, Venetians, and Spanish. However, it seems that the sea itself was always on the margins of historical inquiry - at least, until the publication of the famous two-volume work by F. Braudel in 1949. This collection of essays aims to offer a vertical history of war in the Mediterranean Sea, from the early Middle Ages to the early modernity, putting the emphasis on the changing face of several different aspects and contexts of war over time. Contributors are Stephen Bennett, Stathis Birtachas, Cornel Bontea, Wayne H. Bowen, Lilia Campana, Raffaele D'Amato, Elina Gugliuzzo, Nikolaos Kanellopoulos, Savvas Kyriakides, Tilemachos Lounghis, Alan V. Murray, Chrysovalantis Papadamou, Jacopo Pessina, Philip Rance, Georgios Theotokis, Iason Tzouriadis, Ian Wilson, and Aysel Yildiz.

**History of the Adriatic** Egidio Ivetic, 2022-05-27 The Adriatic is 'the small Mediterranean' - a sea within a sea, part of

the Mediterranean and at the same time detached from it, a largely enclosed sea with stunning coastlines and a long history of commercial, political and cultural exchange. Silent witness to the flow of civilizations, the Adriatic is the meeting point of East and West where many empires had their frontiers and some overlapped. With Italy on one side and the Balkans on the other, the Adriatic is the area where the Latin West became intertwined with the Greek and Ottoman East. This book tells the history of the Adriatic from the first cultures of the Neolithic Age through to the present day. All of the great civilizations and cultures that bordered and crossed the Adriatic are discussed: Ancient Greece and Rome, Byzantium and the Holy Roman Empire, Venice and the Ottomans, Catholicism, Orthodox Christianity and Islam. Byzantium was replaced by Venice, queen of the Adriatic, which reached its zenith at the beginning of the sixteenth century and maintained commercial and military hegemony in its Gulf, sharing the sea with the Turks, the Habsburgs, the Pope and the Spanish vice-kingdom of Naples. It was Napoleon who ended Venice's reign in 1797. In the nineteenth century, the Austrian Empire prevailed, and Central Europe reached the Mediterranean through the Adriatic. United Italy placed its most symbolic frontier in the eastern Adriatic, clashing with Austria-Hungary in the First World War. The twentieth century was marked by the prolonged conflicts and eventually peace between Yugoslavia, Albania and Italy. Today the Adriatic is a region increasingly integrated into the European Union, experiencing a new era of cooperation following the dramatic collapse of Yugoslavia. Across centuries, this book illustrates the rich cultural and artistic heritage of diverse civilizations as they left their mark on the cities, shores and states of the Adriatic.

**Sustainable Venice: Suggestions for the Future** Ignazio Musu, 2001-01-31 It is universally recognised that Venice and its lagoon are of such value that they constitute an international public good that must be preserved for humanity as a whole. But such an ambitious task requires a diversified, sustainable set of economic activities, mostly focused on the production of services and non-material goods. This complex issue is analyzed using different approaches, with a discussion of the case of Venice as an example of some of the most relevant problems concerning the relation between the environment and development in the contemporary world: the trade-off between preserving an ecosystem and considering it as an economic resource; the evolution of different urban growth scenarios and the preservation of a physical habitat; the role of immaterial production in urban economic development; the nature of tourism as a sustainable activity, considered from both from the environmental and cultural angles; the institutional aspect of governing a process of sustainable urban development. Readership: A unique resource for environmental and urban managers, policy analysts, students of sustainable development, and anyone else interested in the social and economic implications of preserving one of the most loved and celebrated cities in the world.

**Italian Jewish Networks from the Seventeenth to the Twentieth Century** Francesca Bregoli, Carlotta Ferrara degli Uberti, Guri Schwarz, 2018-07-26 The volume investigates the interconnections between the Italian Jewish worlds and wider European and Mediterranean circles, situating the Italian Jewish experience within a transregional and transnational context mindful of the complex set of networks, relations, and loyalties that characterized Jewish diasporic life. Preceded by a methodological introduction by the editors, the chapters address rabbinic connections and ties of communal solidarity in the early modern period, and examine the circulation of Hebrew books and the overlap of national and transnational identities after emancipation. For the twentieth century, this volume additionally explores the Italian side of the *Wissenschaft des Judentums*; the role of international Jewish agencies in the years of Fascist racial persecution; the interactions between Italian Jewry, JDPs and Zionist envoys after World War II; and the impact of Zionism in transforming modern Jewish identities.

*Restating Orientalism* Wael B. Hallaq, 2018-07-03 Since Edward Said's foundational work, Orientalism has been singled out for critique as the quintessential example of Western intellectuals' collaboration with oppression. Controversies over the imbrications of knowledge and power and the complicity of Orientalism in the larger project of colonialism have been waged among generations of scholars. But has Orientalism come to stand in for all of the sins of European modernity, at the cost of neglecting the complicity of the rest of the academic disciplines? In this landmark theoretical investigation, Wael B. Hallaq reevaluates and deepens the critique of Orientalism in order to deploy it for rethinking the foundations of the modern project. Refusing to isolate or scapegoat Orientalism, *Restating Orientalism* extends the critique to other fields, from law, philosophy, and scientific inquiry to core ideas of academic thought such as sovereignty and the self. Hallaq traces their involvement in colonialism, mass annihilation, and systematic destruction of the natural world, interrogating and historicizing the set of causes that permitted modernity to wed knowledge to power. *Restating Orientalism* offers a bold rethinking of the theory of the author, the concept of sovereignty, and the place of the secular Western self in the modern project, reopening the problem of power and knowledge to an ethical critique and ultimately theorizing an exit from modernity's predicaments. A remarkably ambitious attempt to overturn the foundations of a wide range of academic disciplines while also drawing on the best they have to offer, *Restating Orientalism* exposes the depth of academia's lethal complicity in modern forms of capitalism, colonialism, and hegemonic power.
