Principled Regulation Australia. Law Reform Commission,Australian Law Reform Commission,2002 The distinction between criminal and non-criminal (civil) penalty law and procedure is significant and adds to the subtlety of regulatory law. This Report finds that the distinction should be maintained and, where necessary, reinforced.

From Disaster Response to Risk Management Linda C. Botterill,Donald A. Wilhite,2005-02-17 An academically focused collection of papers highlighting the successes and challenges of a move from disaster to risk management in responding to drought. The book passes on the experiences gained from Australia's trail-blazing new policy, introduced in 1992.

Law's Documents Katherine Biber,Trish Luker,Priya Vaughan,2021-12-29 Illuminating their breadth and diversity, this book presents a comprehensive and multidisciplinary view of legal documents and their manifold forms, uses, materialities and meanings. In 1951, Suzanne Briet, a librarian at the Bibliotheque Nationale in Paris, famously said that an antelope in a zoo could be a document, thereby radically changing the way documents were analysed and understood. In the fifty years since this pronouncement, the digital age has introduced a potentially limitless range of digital and technological forms for

the capture and storage of information. In their multiplicity and their ubiquity, documents pervade our everyday life. However, the material, intellectual, aesthetic and political dimensions and effects of documents remain difficult to pin down. Taking a multidisciplinary and international approach, this collection tackles the question, what is a legal document?, in order to explore the material, aesthetic and intellectual attributes of legal documentation; the political and colonial orders reflected and embedded in documents; and the legal, archival and social systems which order and utilise information. As well as scholars in law, documentary theory, history, Indigenous studies, art history and design theory and practice, this book will also appeal to those working in libraries, archives, galleries and museums, for whom the ongoing challenges of documentation in the digital age are urgent and timely questions.

Australian Official Publications Howard Coxon, 2016-06-06 Australian Official Publications is a six-part book that begins with a separate chapter on the framework of Australian government. Part I then describes the main features of the commonwealth parliament. Part II details the commonwealth government departments and statutory authorities. Parts III and IV elucidate the distribution and availability of Australian official publications and the main forms of official publishing in each State of Australia. Part V discusses the internal territories of the Australian Capital Territory and the Northern Territory. The last part contains the bibliography of Australian official publications. This book will be helpful to general readers to understand the system of government which prevails and something of the working of its organs.

Protecting Rights Without a Bill of Rights Jeffrey Goldsworthy, Tom Campbell, Adrienne Stone, 2017-11-30 Australia is now the only major Anglophone country that has not adopted a Bill of Rights. Since 1982 Canada, New Zealand and the UK have all adopted either constitutional or statutory bills of rights. Australia, however, continues to rely on common law, statutes dealing with specific issues such as racial and sexual discrimination, a generally tolerant society and a vibrant democracy. This book focuses on the protection of human rights in Australia and includes international perspectives for the purpose of comparison and it provides an examination of how well Australian institutions, governments, legislatures, courts and tribunals have performed in protecting human rights in the absence of a Bill of Rights.

The Constitution of Australia Cheryl Saunders, 2010-11-30 Consistently with the aims of the series, the book canvasses the Australian constitutional system in a way that explains its form and operation, provides a critical evaluation of it and conveys a sense of the contemporary national debate. The chapters deal with the foundations of Australian constitutionalism, its history from the time of European settlement, the nature of the Australian Constitutions, the framework for judicial review, the legislative, executive and judicial branches of government, federalism and multi-level government and rights protection. Running through all chapters is the story of the gradual evolution of Australian constitutionalism within the lean but almost unchanging framework of the formal, written, national Constitution. A second theme traces the way in which the present, distinctive, constitutional arrangements in Australia emerged from creative tension between the British and United

States constitutional traditions on which the Australian Constitution originally drew and which continues to manifest itself in various ways. One of these, which is likely to be of particular interest, is Australian reliance on institutional arrangements for the purpose of the protection of rights. The book is written in a clear and accessible style for readers in both Australia and countries around the world. Each chapter is followed by additional references to enable particular issues to be pursued further by readers who seek to do so. 'The Constitution of Australia' has already been cited in a High Court of Australia case: *Momcilovic v The Queen* [2011] HCA 34 (8 September 2011)

Caring for People who Sniff Petrol Or Other Volatile Substances National Health and Medical Research Council (Australia), 2011 These guidelines provide recommendations that outline the critical aspects of infection prevention and control. The recommendations were developed using the best available evidence and consensus methods by the Infection Control Steering Committee. They have been prioritised as key areas to prevent and control infection in a healthcare facility. It is recognised that the level of risk may differ according to the different types of facility and therefore some recommendations should be justified by risk assessment. When implementing these recommendations all healthcare facilities need to consider the risk of transmission of infection and implement according to their specific setting and circumstances.

Policing Undocumented Migrants Louise Boon-Kuo, 2017-08-07 Migration policing experiments such as boat turn-backs and offshore refugee processing have been criticised as unlawful and have been characterised as exceptional. *Policing Undocumented Migrants* explores the extraordinarily routine, powerful, and above all lawful practices engaged in policing status within state territory. This book reveals how the everyday violence of migration law is activated by making people 'illegal'. It explains how undocumented migrants are marginalised through the broad discretion underpinning existing frameworks of legal responsibility for migration policing. Drawing on interviews with people with lived experience of undocumented status within Australia, perspectives from advocates, detailed analysis of legislation, case law and policy, this book provides an in-depth account of the experiences and legal regulation of undocumented migrants within Australia. Case studies of street policing, immigration raids, transitions in legal status such as release from immigration detention, and character based visa determination challenge conventional binaries in migration analysis between the citizen and non-citizen and between lawful and unlawful status. By showing the organised and central role of discretionary legal authority in policing status, this book proposes a new perspective through which responsibility for migration legal practices can be better understood and evaluated. *Policing Undocumented Migrants* will be of interest to scholars and practitioners working in the areas of criminology, criminal law, immigration law and border studies.

Parliamentary Debates Australia. Parliament,1922

State Apologies to Indigenous Peoples Francesca Dominello,2024-08-16 This book considers the ethics and politics of state apologies made to Indigenous peoples. The prevalent tendency to treat an apology as a speech act has maintained the focus on the state leader making the apology and not on the victims' claims. This book demonstrates the inherent shortcomings of this approach through an examination of apologies delivered to Indigenous peoples in Australia and Canada. Contrasting the texts of these apologies with Indigenous peoples' responses, the book develops an understanding of apology as a relational process. This involves engaging indigenous peoples in dialogue, the aim of which would be to address past injuries by fulfilling the apology's transformative promise of 'never again' to indigenous peoples' satisfaction. The book concludes by examining more recent developments in Australia and Canada that highlight the continuing need for government accountability to fulfil this promise and ensure indigenous people's rights and interests are upheld. This book will be of considerable interest to scholars and students in the fields of law and politics , Indigenous studies; forgiveness studies; transitional justice and reconciliation; settler colonialism and decolonisation.
