Will I Ever Be Good Enough? Karyl McBride,2008-09-23 From experienced family therapist Dr. Karyl McBride, Will I Ever

Be Good Enough? is an essential guide to recovery for women with selfish, emotionally abusive, and toxic mothers—designed to help daughters reclaim their lives. The first book for daughters who have suffered the abuse of narcissistic, self-involved mothers, *Will I Ever Be Good Enough?* provides the expert assistance you need in order to overcome this debilitating history and reclaim your life. Drawing on more than two decades of experience as a therapist specializing in women's health and hundreds of interviews with suffering daughters, Dr. Karyl McBride helps you recognize the widespread effects of this emotional abuse and create an individualized program for self-protection, resolution, and complete recovery. Narcissistic mothers teach their daughters that love is not unconditional, that it is given only when they behave in accordance with maternal expectations and whims. As adults, these daughters have difficulty overcoming feelings of inadequacy, disappointment, emotional emptiness, and sadness. They may also have a fear of abandonment that leads them to form unhealthy romantic relationships, as well as a tendency to perfectionism and unrelenting self-criticism or to self-sabotage and frustration. Dr. McBride's step-by-step program will enable you to: (1) Recognize your own experience with maternal narcissism and its effects on all aspects of your life (2) Discover how you have internalized verbal and nonverbal messages from your mother and how these have translated into overachievement or self-sabotage (3) Construct a personalized program to take control of your life and enhance your sense of self, establishing healthy boundaries with your mother and breaking the legacy of abuse Warm and sympathetic, Dr. McBride brings a profound level of authority to *Will I Ever Be Good Enough?* that encourages and inspires you as it aids your recovery.

Understanding the Borderline Mother Christine Ann Lawson, 2002 The first love in our lives is our mother. Recognizing her face, her voice, the meaning of her moods, and her facial expressions is crucial to survival. Dr. Christine Ann Lawson vividly describes how mothers who suffer from borderline personality disorder produce children who may flounder in life even as adults, futilely struggling to reach the safety of a parental harbor, unable to recognize that their borderline parent lacks a pier, or even a discernible shore. Four character profiles describe different symptom clusters that include the waif mother, the hermit mother, the queen mother, and the witch. Children of borderlines are at risk for developing this complex and devastating personality disorder themselves. Dr. Lawson's recommendations for prevention include empathic understanding of the borderline mother and early intervention with her children to ground them in reality and counteract the often dangerous effects of living with a make-believe mother. Some readers may recognize their mothers as well as themselves in this book. They will also find specific suggestions for creating healthier relationships. Addressing the adult children of borderlines and the therapists who work with them, Dr. Lawson shows how to care for the waif without rescuing her, to attend to the hermit without feeding her fear, to love the queen without becoming her subject, and to live with the witch without becoming her victim. Parenting Matters National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Board on Children, Youth, and Families, Committee on Supporting the Parents of Young Children, 2016-11-21 Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for

families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

The Road Back to Me Lisa A. Romano, 2012-04-09 Healing and Recovering from Co-dependency, Addiction, Enabling, and Low Self-Esteem This story is told through the jagged peephole of the author's awareness, examining her formative wounds and influences from the perspective of a woman who has now gained experience and wisdom. As she peers over her soul's shoulder, she recalls the chaos of her once-fragile childhood mind. She shudders as she is reminded of the sting of her lonely childhood, her feelings of abandonment, and her painful memories of being bullied. Her childhood self was once so lost that she even contemplated suicide. As the years progress, her mind is riddled with obsession, compulsion, and a crippling sense of low self-esteem. A turning point arrives many years later, after marriage and the birth of three children. This story is about healing the faulty programming of childhood. It is about recovery from relationship addiction, food addiction, anxiety, and constant fear. It is a human story that will resonate with readers from all walks of life, and which offers hope to anyone who has felt imprisoned by the past.

How To Raise An Adult Julie Lythcott-Haims, 2015-07-24 For parents who want to foster hearty self-reliance instead of hollow self-esteem, How to Raise an Adult is the right book at the right time. -Daniel H. Pink, author of the New York Times bestsellers Drive and A Whole New Mind A provocative manifesto that exposes the harms of helicopter parenting and sets forth an alternate philosophy for raising preteens and teens to self-sufficient young adulthood. In How to Raise an Adult, Julie Lythcott-Haims draws on research, on conversations with admissions officers, educators, and employers, and on her own insights as a mother and as a student dean to highlight the ways in which overparenting harms children, their stressed-out parents, and society at large. While empathizing with the parental hopes and, especially, fears that lead to overhelping, Lythcott-Haims offers practical alternative strategies that underline the importance of allowing children to make their own mistakes and develop the resilience, resourcefulness, and inner determination necessary for success. Relevant to parents of toddlers as well as of twentysomethings-and of special value to parents of teens-this book is a rallying cry for those who wish to ensure that the next generation can take charge of their own lives with competence and confidence.

The mixed messages and guilt weighs you down and leaves you wondering if you can ever get it right. How can you turn this around, free yourself from self-doubt, and break the cycle for your own daughter? You can meditate, chant affirmations, and dutifully practice feeling grateful all you want, but you can't create the life you desire without addressing the issues around the person who first gave you life. Feel that you have to choose between looking good and feeling good? Come with me, as I show you how the problems you have with your mother mirror the problems you have in life. By understanding what has gone wrong in the mother/daughter relationship and turning it around, you activate the Feminine energy that is the key to having the life you've always wanted. Are you ready to rise up, come alive, and live beyond your mother's limiting messages? Rise up and claim your full true Feminine power! In psychotherapist's Katherine Fabrizio's ground breaking book, DAUGHTERS RISING, she tells you how your relationship with your mother is affecting your life in ways you have not yet imagined. Your struggle with mom mirrors the internal struggle you have with yourself. The impossible standards your mother tried to live up to has caused you to be filled with shame, guilt and self-doubt. It doesn't have to be this way. Buried in each disempowering message is a message of strength and hope when you get back online with your Feminine power. You can't get there with the masculine energy that held your mother down and is so prevalent in the western culture today. This book will break the spells that are holding you back from the life you've always wanted and show you the way home to claim your true Feminine power. Get clear on the mixed messages that were passed down to you and learn how to rise above those messages. What are you waiting for? Your life is waiting. See how you have had the power in you all along. This, my pretty, changes everything.
