The Cigarette Century Allan M. Brandt, 2009-01-06 The invention of mass marketing led to cigarettes being emblazoned in advertising and film, deeply tied to modern notions of glamour and sex appeal. It is hard to find a photo of Humphrey Bogart or Lauren Bacall without a cigarette. No product has been so heavily promoted or has become so deeply entrenched in American consciousness. And no product has received such sustained scientific scrutiny. The development of new medical knowledge demonstrating the dire harms of smoking ultimately shaped the evolution of evidence-based medicine. In response, the tobacco industry engineered a campaign of scientific disinformation seeking to delay, disrupt, and suppress these studies. Using a massive archive of previously secret documents, historian Allan Brandt shows how the industry pioneered these campaigns, particularly using special interest lobbying and largesse to elude regulation. But even as the cultural dominance of the cigarette has waned and consumption has fallen dramatically in the U.S., Big Tobacco remains securely positioned to expand into new global markets. The implications for the future are vast: 100 million people died of smoking-related diseases in the 20th century; in the next 100 years, we expect 1 billion deaths worldwide.

The Bizarre Careers of John R. Brinkley R. Alton Lee, 2022-08-16 By 1926, it seemed that John R. Brinkley's experimental rejuvenation cure—transplanting goat glands into aging men—had taken the nation by storm. Never mind that Doc Brinkley's medical credentials were shaky at best and that he prescribed medication over the airwaves via his high-power radio stations. To most in the medical field, he was a quack. But to his many patients and listeners, he was a brilliant surgeon, a savior of their lost manhood and youth. His rogue radio stations, XER and its successor XERA, eventually broadcast at an antenna-shattering 1,000,000 watts and not only were a megaphone for Brinkley's lucrative quackery but also hosted an unprecedented number of then-unknown country musicians and other guests. *The Bizarre Careers of John R. Brinkley* tells the story of the infamous Goat Gland Doctor—a controversial medical charlatan, groundbreaking radio impresario, and prescient political campaigner—and recounts his amazing rags-to-riches-to-rags career. A master manipulator and skilled con artist, Brinkley left behind a patchwork of myths and unreliable personal accounts that many writers have merely perpetuated—until now. Alton Lee brings Brinkley's infamous legacy to the forefront, exploring how he ruthlessly exploited the sexual frustrations of aging men and the general public's antipathy toward medical doctors. Lee leaves no stone unturned in this account of a man who changed the course of American institutions forever.

The Writing Revolution Judith C. Hochman, Natalie Wexler, 2017-07-27 Why you need a writing revolution in your classroom and how to lead it The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, The Writing Revolution can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The Writing Revolution is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

Handbook of Consumer Psychology Curtis P. Haugtvedt, Paul M. Herr, Frank R. Kardes, 2018-12-07 This Handbook contains a unique collection of chapters written by the world's leading researchers in the dynamic field of consumer psychology. Selling Catholicism Christopher Owen Lynch, 2014-10-17 When the popularity of Milton Berle's television show began to slip, Berle quipped, At least I'm losing my ratings to God! He was referring to the popularity of Life Is Worth Living and its host, Bishop Fulton J. Sheen. The show aired from 1952 to 1957, and Sheen won an Emmy, beating competition that included Lucille Ball, Jimmy Durante, and Edward R. Murrow. What was the secret to Sheen's on-air success? Christopher Lynch examines how he reached a diverse audience by using television to synthesize traditional American Protestantism with a reassuring vision of Catholicism as patriotic and traditional. Sheen provided his viewers with a sense of stability by sentimentalizing the medieval world and holding it out as a model for contemporary society. Offering clear-cut moral direction in order to eliminate the anxiety of cultural change, he discussed topics ranging from the role of women to the

perils of Communism. Sheen's rhetoric united both Protestant and Catholic audiences, reflecting—and forming—a vision of mainstream, postwar America. Lynch argues that Sheen's persuasive television presentations helped Catholics gain social acceptance and paved the way for religious ecumenism in America. Yet, Sheen's work also sowed the seeds for the crisis of competing ideologies in the modern American Catholic Church.

Each Wild Idea Geoffrey Batchen,2002-02-22 Essays on photography and the medium's history and evolving identity. In *Each Wild Idea*, Geoffrey Batchen explores a wide range of photographic subjects, from the timing of the medium's invention to the various implications of cyberculture. Along the way, he reflects on contemporary art photography, the role of the vernacular in photography's history, and the Australianness of Australian photography. The essays all focus on a consideration of specific photographs—from a humble combination of baby photos and bronzed booties to a masterwork by Alfred Stieglitz. Although Batchen views each photograph within the context of broader social and political forces, he also engages its own distinctive formal attributes. In short, he sees photography as something that is simultaneously material and cultural. In an effort to evoke the lived experience of history, he frequently relies on sheer description as the mode of

analysis, insisting that we look right at—rather than beyond—the photograph being discussed. A constant theme throughout the book is the question of photography's past, present, and future identity.

Made to Break Giles Slade, 2009-06-30 Made to Break is a history of twentieth-century technology as seen through the prism of obsolescence.
