African-Australian Marriage Migration Henrike A. Hoogenraad, 2021-09-13 In African-Australian Marriage Migration: An Ethnography of (Un)happiness, Henrike A. Hoogenraad follows journeys of marriage migration among African-Australian couples. The study narrates these journeys as 'happiness projects', since for cross-border couples, happiness is connected to dreams for a life-long partnership that begins with the visa application. Yet, happiness is invoked as an aspired state rather than an achieved goal. The obstacles of government bureaucracy, institutional and everyday racism, and unrealistic expectations of romance prevent the hoped-for happy endings. This monograph upsets a 'scam artist' narrative that generalises migrant men and their sponsoring partners, and which obscures the difficult process of crossing borders both physical and intimate. Hoogenraad's work is a welcome contribution to anthropological literature on marriage migration.

**Navy Force Structure and Shipbuilding Plans** Ronald O'Rourke, Congressional Research Service, 2020-11-14 Updated 12/10/2020: In December 2016, the Navy released a force-structure goal that calls for achieving and maintaining a fleet of 355 ships of certain types and numbers. The 355-ship goal was made U.S. policy by Section 1025 of the FY2018 National Defense Authorization Act (H.R. 2810/P.L. 115- 91 of December 12, 2017). The Navy and the Department of Defense (DOD) have been working since 2019 to develop a successor for the 355-ship force-level goal. The new goal is expected to introduce a new, more distributed fleet architecture featuring a smaller proportion of larger ships, a larger proportion of smaller ships, and a new third tier of large unmanned vehicles (UVs). On December 9, 2020, the Trump Administration released a document that can be viewed as its vision for future Navy force structure and/or a draft version of the FY2023 30-year Navy shipbuilding plan. The document presents a Navy force-level goal that calls for achieving by 2045 a Navy with a more distributed fleet architecture, 382 to 446 manned ships, and 143 to 242 large UVs. The Administration that takes office on January 20, 2021, is required by law to release the FY2022 30-year Navy shipbuilding plan in connection with DOD's proposed FY2022 budget, which will be submitted to Congress in 2021. In preparing the FY2022 30-year shipbuilding plan, the Administration that takes office on January 20, 2021, may choose to adopt, revise, or set aside the

document that was released on December 9, 2020. The Navy states that its original FY2021 budget submission requests the procurement of eight new ships, but this figure includes LPD-31, an LPD-17 Flight II amphibious ship that Congress procured (i.e., authorized and appropriated procurement funding for) in FY2020. Excluding this ship, the Navy's original FY2021 budget submission requests the procurement of seven new ships rather than eight. In late November 2020, the Trump Administration reportedly decided to request the procurement of a second Virginia-class attack submarine in FY2021. CRS as of December 10, 2020, had not received any documentation from the Administration detailing the exact changes to the Virginia-class program funding lines that would result from this reported change. Pending the delivery of that information from the administration, this CRS report continues to use the Navy's original FY2021 budget submission in its tables and narrative discussions.

**The Report: Trinidad & Tobago 2020** Oliver Cornock, Trinidad and Tobago is the largest producer of oil and gas in the Caribbean; however, like many hydrocarbon-producing nations worldwide, the slump in global energy prices beginning in 2014 negatively affected broader growth. While there is a need to diversify the economy away from its dependence on hydrocarbons, a number of new oil and gas discoveries in late 2019 appear set to support a short-term recovery in the energy sector and lend financing to the wider economy.
