Historical Painting Techniques, Materials, and Studio Practice Arie Wallert,Erma Hermens,Marja Peek,1995-08-24 Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled Historical Painting Techniques, Materials, and Studio Practice at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.

Ordinary Grace William Kent Krueger,2014-03-04 Includes an excerpt from William Kent Krueger's This tender land.

The Parisian Gentleman Hugo Jacomet,2018-11-13 In a new compact edition, a luxurious celebration of the elegant craftsmanship behind the timeless French men's fashion and lifestyle labels. Home of haute couture and the world's leading fashion houses, Paris and its inhabitants represent sophistication and refinement to the rest of the world. Debonair Parisian men continue to participate in a centuries-long tradition of sartorial craftsmanship and quality. In its newly accessible compact edition, The Parisian Gentleman is like a dream shopping excursion to the leading men's style-makers, from hidden

ateliers and little-known studios to internationally renowned labels such as shirtmakers Charvet, shoemakers Berluti, and the recently revived trunk-makers Moynat. The stories behind each house, and the creative minds and artisans who give each brand its unique identity, bring the clothes alive, capturing an unceasing dedication to quality in an era overrun with new, mass-produced trends. Author Hugo Jacomet's portraits of these often-inaccessible marques (or brands) are intimate and illuminating, thanks to his personal connections to many of the leading figures. His text is accompanied by beautifully shot photographs of the designers, studios, garments, and locations, the majority of which were taken exclusively for this book.

A Little History of the World E. H. Gombrich, 2014-10-01 E. H. Gombrich's *Little History of the World*, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the *Little History* brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design, fine paper, and classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human history.

Rent Jonathan Larson, 2008 (Applause Libretto Library). Finally, an authorized libretto to this modern day classic! *Rent* won the 1996 Pulitzer Prize for Drama, as well as four Tony Awards, including Best Musical, Best Book, and Best Score for Jonathan Larson. The story of Mark, Roger, Maureen, Tom Collins, Angel, Mimi, JoAnne, and their friends on the Lower East Side of New York City will live on, along with the affirmation that there is no day but today. Includes 16 color photographs of productions of *Rent* from around the world, plus an introduction (*Rent Is Real*) by Victoria Leacock Hoffman.

The Banquet Bug Geling Yan, 2006-07-11 When factory worker Dan Dong accidentally discovers how easy it is to infiltrate state- and corporate-sponsored banquets by posing as a journalist, he quickly becomes addicted to the insane luxury of these meals. For the first time, he tastes crab-claw tips, exotic fungi, and a dish made from thousands of pigeon tongues arranged in the shape of a chrysanthemum. But when Dan's disguise enables him to become privy to a deep-rooted scandal, his conscience compels him to cross the line between subterfuge and reality by actually writing an expose. With the help of the witty, jaded reporter Happy Gao, Dan embarks on a journey that will take him from the highest rungs of society to its most sordid depths. Throughout the book, food - from the spicy, oily fare Dan orders for a high-class prostitute at a restaurant called Pink Chamber, to the humble noodle dishes prepared by his long-suffering wife, Little Plum - is present on

almost every page, described so vividly that you can almost smell and taste it. But by the final page of *The Banquet Bug*, it has become clear that the perils of consumption run parallel to its pleasures.--BOOK JACKET.

In the Shadow of the Holocaust James F. Tent,2003 James Tent recounts how these men and women from all over Germany and from all walks of life struggled to survive in an increasingly hostile society, even as their Jewish relatives were disappearing into the East. It draws on extensive interviews with twenty survivors, many of whom were teenagers when Hitler came to power, to show how half-Jews coped with conditions on a day-to-day basis, and how the legacy of the hatred they suffered still lingers in their minds.

An Introduction to Manifolds Loring W. Tu,2010-10-05 Manifolds, the higher-dimensional analogs of smooth curves and surfaces, are fundamental objects in modern mathematics. Combining aspects of algebra, topology, and analysis, manifolds have also been applied to classical mechanics, general relativity, and quantum field theory. In this streamlined introduction to the subject, the theory of manifolds is presented with the aim of helping the reader achieve a rapid mastery of the essential topics. By the end of the book the reader should be able to compute, at least for simple spaces, one of the most basic topological invariants of a manifold, its de Rham cohomology. Along the way, the reader acquires the knowledge and skills necessary for further study of geometry and topology. The requisite point-set topology is included in an appendix of twenty pages; other appendices review facts from real analysis and linear algebra. Hints and solutions are provided to many of the exercises and problems. This work may be used as the text for a one-semester graduate or advanced undergraduate course, as well as by students engaged in self-study. Requiring only minimal undergraduate prerequisites, 'Introduction to Manifolds' is also an excellent foundation for Springer's GTM 82, 'Differential Forms in Algebraic Topology'.

Ankur hopes for this book to become the most gifted book ever!

Fashion Myths Roman Meinhold,2014-04-30 Besides products and services multinational corporations also sell myths, values and immaterial goods. Such »meta-goods« (e.g. prestige, beauty, strength) are major selling points in the context of successful marketing and advertising. Fashion adverts draw on deeply rooted human values, ideals and desires such as

values and symbols of social recognition, beautification and rejuvenation. Although the reference to such meta-goods is obvious to some consumers, their rootedness in philosophical theories of human nature is less apparent, even for the marketers and advertisers themselves. This book is of special interest for researchers and students in the fields of Cultural Studies, Media Studies, Marketing, Advertising, Fashion, Cultural Critique, Philosophy, Sociology, Anthropology and Psychology, and for anyone interested in the ways in which fashion operates.

Comparative Oriental Manuscript Studies Comparative Oriental Manuscript Studies, COMSt, 2015-01-21 The present volume is the main achievement of the Research Networking Programme 'Comparative Oriental Manuscript Studies', funded

by the European Science Foundation in the years 2009-2014. It is the first attempt to introduce a wide audience to the entirety of the manuscript cultures of the Mediterranean East. The chapters reflect the state of the art in such fields as codicology, palaeography, textual criticism and text editing, cataloguing, and manuscript conservation as applied to a wide array of language traditions including Arabic, Armenian, Avestan, Caucasian Albanian, Christian Palestinian Aramaic, Coptic, Ethiopic, Georgian, Greek, Hebrew, Persian, Slavonic, Syriac, and Turkish. Seventy-seven scholars from twenty-one countries joined their efforts to produce the handbook. The resulting reference work can be recommended both to scholars and students of classical and oriental studies and to all those involved in manuscript research, digital humanities, and preservation of cultural heritage. The volume includes maps, illustrations, indexes, and an extensive bibliography.

Forging the Shield Donald A. Carter, 2015 This illustrated book that includes tables, charts, and maps primarily discusses the role of USAREUR (US Army Europe) in rearming and training the new German Army which was perhaps the Army's single greatest contribution toward maintaining security in Western Europe. Likewise, the relationship between American soldiers and their French and West German hosts evolved over time and is a critical element in telling the story of the US Army in Europe.

Boswell, Maria Martha Makela, Carolyn Lanchner, Kristin Makhholm, 1996 Here, in the first comprehensive survey of her work by an American museum, authors Peter Boswell, Maria Makela, and Carolyn Lanchner survey the full scope of Hoch's half-century of experimentation in photomontage - from her politically charged early works and intimate psychological portraits of the Weimar era to her later forays into surrealism and abstraction.
