Principles of Macroeconomics for AP® Courses 2e Steven A. Greenlaw, David Shapiro, Timothy Taylor, 2017-11-29 Principles of Macroeconomics for AP® Courses 2e covers the scope and sequence requirements for an Advanced Placement® macroeconomics course and is listed on the College Board's AP® example textbook list. The second edition includes many current examples and recent data from FRED (Federal Reserve Economic Data), which are presented in a politically equitable way. The outcome is a balanced approach to the theory and application of economics concepts.

The Impact of School Infrastructure on Learning Peter Barrett, Alberto Treves, Tigran Shmis, Diego Ambasz, 2019-02-04 'The Impact of School Infrastructure on Learning: A Synthesis of the Evidence provides an excellent literature review of the resources that explore the areas of focus for improved student learning, particularly the aspiration for “accessible, well-built, child-centered, synergetic and fully realized learning environments.†? Written in a style which is both clear and accessible, it is a practical reference for senior government officials and professionals involved in the planning and design of educational facilities, as well as for educators and school leaders. --Yuri Belfali, Head of Division, Early Childhood and Schools, OECD Directorate for Education and Skills This is an important and welcome addition to the surprisingly small, evidence base on the impacts of school infrastructure given the capital investment involved. It will provide policy makers, practitioners, and those who are about to commission a new build with an important and comprehensive point of reference. The emphasis on safe and healthy spaces for teaching and learning is particularly welcome. --Harry Daniels, Professor of Education, Department of Education, Oxford University, UK This report offers a useful library of recent research to support the, connection between facility quality and student outcomes. At the same time, it also points to the unmet need for research to provide verifiable and reliable information on this connection. With such evidence, decisionmakers will be better positioned to accurately balance the allocation of limited resources among the multiple competing dimensions of school policy, including the construction and maintenance of the school facility. --David Lever, K-12 Facility Planner, Former Executive Director of

the Interagency Committee on School Construction, Maryland Many planners and designers are seeking a succinct body of research defining both the issues surrounding the global planning of facilities as well as the educational outcomes based on the quality of the space provided. The authors have finally brought that body of evidence together in this well-structured report. The case for better educational facilities is clearly defined and resources are succinctly identified to stimulate the dialogue to come. We should all join this conversation to further the process of globally enhancing learning-environment quality! --David Schrader, AIA, Educational Facility Planner and Designer, Former Chairman of the Board of Directors, Association for Learning Environments (A4LE)

Slavery and the Enlightenment in the British Atlantic, 1750-1807 Justin Roberts, 2013-07-08 This book examines the daily details of slave work routines and plantation agriculture in the eighteenth-century British Atlantic, focusing on case studies of large plantations in Barbados, Jamaica and Virginia. Work was the most important factor in the slaves' experience of the institution. Slaves' day-to-day work routines were shaped by plantation management strategies that drew on broader pan-Atlantic intellectual and cultural principles. Although scholars often associate the late eighteenth-century Enlightenment with the rise of notions of liberty and human rights and the dismantling of slavery, this book explores the dark side of the Enlightenment for plantation slaves. Many planters increased their slaves' workloads and employed supervisory technologies to increase labor discipline in ways that were consistent with the process of industrialization in Europe. British planters offered alternative visions of progress by embracing restrictions on freedom and seeing increasing labor discipline as central to the project of moral and economic improvement.

Global Climate Change Impacts in the United States U.S. Global Change Research Program, 2009-08-24 Summarizes the science of climate change and impacts on the United States, for the public and policymakers.

The Thing Around Your Neck Chimamanda Ngozi Adichie, 2010-06-01 These twelve dazzling stories from the award-winning author of *Half of a Yellow Sun* Chimamanda Ngozi Adichie are her most intimate works to date. In these stories Adichie turns her penetrating eye to the ties that bind men and women, parents and children, Nigeria and the United States. In "A Private Experience," a medical student hides from a violent riot with a poor Muslim woman, and the young mother at the centre of "Imitation" finds her comfortable life in Philadelphia threatened when she learns that her husband has moved his mistress into their Lagos home. Searing and profound, suffused with beauty, sorrow and longing, this collection is a resounding confirmation of Adichie's prodigious literary powers.

Global Economic History: A Very Short Introduction Robert C. Allen, 2011-09-15 Why are some countries rich and

others poor? In 1500, the income differences were small, but they have grown dramatically since Columbus reached America. Since then, the interplay between geography, globalization, technological change, and economic policy has determined the wealth and poverty of nations. The industrial revolution was Britain's path breaking response to the challenge of globalization. Western Europe and North America joined Britain to form a club of rich nations by pursuing four policies-creating a national market by abolishing internal tariffs and investing in transportation, erecting an external tariff to protect their fledgling industries from British competition, banks to stabilize the currency and mobilize domestic savings for investment, and mass education to prepare people for industrial work. Together these countries pioneered new technologies that have made them ever richer. Before the Industrial Revolution, most of the world's manufacturing was done in Asia, but industries from Casablanca to Canton were destroyed by western competition in the nineteenth century, and Asia was transformed into 'underdeveloped countries' specializing in agriculture. The spread of economic development has been slow since modern technology was invented to fit the needs of rich countries and is ill adapted to the economic and geographical conditions of poor countries. A few countries - Japan, Soviet Russia, South Korea, Taiwan, and perhaps China - have, nonetheless, caught up with the West through creative responses to the technological challenge and with Big Push industrialization that has achieved rapid growth through investment coordination. Whether other countries can emulate the success of East Asia is a challenge for the future. Cruise Vacations for Mature Travelers Kerry Smith,2010-04-01 If you're one of the more than five million people who will go on a cruise vacation this year, you may be wondering how to choose between the many cruise lines, ships, and destinations that are available. You may be looking for a cruise geared towards adults, one where both you and the grandkids can have fun, or a cruise on which singles are catered to as much as couples. The key to great vacation is knowing what you need in one convenient place. Looking for an Alaskan cruise in an intimate, Old World-style ship, or a huge ocean liner that can keep all ages happy during a Caribbean family reunion? Cruise Vacations for Mature Travelers helps you, the traveler, determine what kind of cruise experience fits your personality and then tells you how to find it, describing every cruise line

and detailing their fleets, ship by ship, so you can choose the perfect vacation! The book also includes tips on budgeting your trip, as well as the options for booking through travel agents, directly with the company, or online. It even helps you choose the best time to travel and the most comfortable cabins. A cruise vacation is an adventure. Make the most of it with Cruise Vacations for Mature Travelers!
