*Consideration in Contract Law* Mark Giancaspro, 2024-09-06 In this innovative book, Mark Giancaspro examines the origins, functions, principles and legacies of the common law doctrine of consideration that regulates contractual exchange. Through a systematic analysis, he explores deep-rooted rules and current controversies in legal jurisdictions across the world.

**Contract Law** Andrew Stewart, Warren Swain, Karen Fairweather, 2019-06-21 Provides a fresh, topical and accessible account of the Australian law of contract.

**The Choice of Law Contract** Maria Hook, 2016-09-22 This book offers a contractual framework for the regulation of party autonomy in choice of law. The party autonomy rule is the cornerstone of any modern system of choice of law; embodying as it does the freedom enjoyed by parties to a cross-border legal relationship to agree on the law applicable to it. However, as this study shows, the rule has a major shortcoming because it fails to give due regard to the contractual function of the choice of law agreement. The study examines the existing law on choice of law agreements, by reference to the law of both common and civil law jurisdictions and international instruments. Moreover, it suggests a new coherent approach to party autonomy that integrates both the law of contract and choice of law. This important new study should be read with interest by private international law scholars.

**Contract Law** Kenneth Yin, Simon Kozlina, Kelly Green, Luca Siliquini-Cinelli, Emmanuel Laryea, Lisa Spagnolo, 2020-10-28 *Contract Law: Cases and Materials* presents a selection of well-chosen cases and illuminating commentary ideal for introducing students to the study of contract law in Australia. Developed to accompany Stewart, Swain and Fairweather's *Contract Law: Principles and Context*, this casebook maintains the accessibility of the principles text while providing the depth and analysis of topics required to learn contract law. Following the structure of the principles text, this text explores areas not traditionally covered in other casebooks, such as resolving disputes, preparing to make a contract, preliminary agreements, and interpreting contracts. Each chapter also briefly explores contracts in international contexts. Containing well-chosen, carefully curated cases and extracts, *Contract Law: Cases and Materials* takes a practical approach to student learning and integrates rich pedagogy to build critical thinking and analysis skills, making it an invaluable resource for contract law students.

*Scholars of Contract Law* James Goudkamp, Donal Nolan, 2022-12-01 This book provides a counter-balance to the traditional focus on judicial decisions by exploring the contribution of legal scholars to the development of private law. In the book the work of a selection of leading scholars of contract law from across the common law world, ranging from Sir Jeffrey Gilbert (1674-1726) to Professor Brian Coote (1929-2019), is addressed by legal historians and current scholars in the field. The focus is on the nature of the work produced by the scholars in question, important influences on their work, and the impact which that work in turn had on thinking about contract law. The book also includes an introductory chapter and an afterword by Professor William Twining that explore connections between the scholars and recurrent themes. The process of subjecting contract law scholarship to sustained analysis provides new insights into the intellectual development of contract law and reveals the central role played by scholars in that process. And by focusing attention on the work of influential contract scholars, the book serves to emphasise the importance of legal scholarship to the development of the common law more generally.

**Construction Law** Julian Bailey, 2016-07-15 Now in its second edition, Construction Law is the standard work of reference for busy construction law practitioners, and it will support lawyers in their contentious and non-contentious practices worldwide. Published in three volumes, it is the most comprehensive text on this subject, and provides a unique and invaluable comparative, multi-jurisdictional approach. This book has been described by Lord Justice Jackson as a tour de force, and by His Honour Humphrey Lloyd QC as seminal and definitive. This new edition builds on that strong foundation and has been fully updated to include extensive references to very latest case law, as well as changes to statutes and regulations. The laws of Hong Kong and Singapore are also now covered in detail, in addition to those of England and Australia. Practitioners, as well as interested academics and post-graduate students, will all find this book to be an invaluable guide to the many facets of construction law.

Professional Liability and Property Transactions Sharon Christensen, W. D. Duncan, 2004 This book examines in detail the

principles underpinning professional liability both at common law (tort and contract) and by reason of statute (Trade Practices Act and Fair Trading Acts) in the context of property professionals. It includes comprehensive coverage of the Civil Liability Acts. The early chapters deal with the sources of professional liability. They include an analysis of remedies for breach of professional obligations generally and of procedural issues, such as limitation of actions, expert evidence, apportionment and contributory negligence in the setting of professional liability. The heart of the book is original and accessible material on the measure of damages as it relates to the liability of the various professionals who become involved in property transactions. There are further chapters on the liability of lenders and local authorities as organisations commonly involved. It is an essential reference for any barrister, solicitor or other professional directly or indirectly involved in litigation in this area, as well as property lawyers. With a Foreword by The Hon Justice Ian Callinan. For more detailed information about the book's purpose and structure, please read the extract from the Preface, below.

International Environmental Law Reports Alice Palmer,Cairo A. R. Robb,1999 The fourth volume of the International Environmental Law Reports collects together approximately fifty decisions of national courts from twenty-six countries, all broadly related to international environmental law. The cases cover a range of environmental issues, from protected species and habitats to activities that impact on the environment - including mining, the construction of dams and waste disposal. The collection evidences different approaches to the relationship between domestic and international legal systems, and highlights many substantive and procedural environmental laws that are enjoying increasing recognition around the world. With around half of the cases having been translated into English from as many as twelve other languages, the volume provides valuable comparative insight into national legal perspectives on international environmental law.

**Business Law** Nickolas James,2024-10-28 Designed specifically for business students, James' Business Law, 7th Edition provides a comprehensive introduction to the fundamentals of business law. Tailored to accommodate the initial encounter with legal principles for business students, this textbook offers a clear and accessible pathway into the realm of law. Unlike traditional texts from leading legal publishers, Business Law, 7th Edition prioritizes a practical approach, emphasizing real-world applications over doctrinal intricacies. By demystifying complex legal concepts and presenting them within a business-oriented framework, this textbook equips students with the necessary foundation to navigate the legal landscape with confidence.

**Contract Formation** Michael Furmston,G.J. Tolhurst,2010-03-25 Providing a practical analysis of the legal principles which govern the formation of contracts in English law (with additional authorities from the Commonwealth), this work on

contract formation offers those involved in litigation and in drafting contracts a guide to the application of those principles in practice.

Regulating International Sport Lloyd Freeburn, 2018-08-07 In a fresh and original account, Lloyd Freeburn challenges the conventional conception of contracts as the consent-based legal foundation of international sports law. The prevailing legal orthodoxy is shown to be untenable, failing to explain or justify international sports governing bodies' regulatory power or their control over the livelihoods and liberty of participants in sport. The non-consensual jurisdiction of the Court of Arbitration for Sport is similarly tainted. But this significant challenge is not made simply to undermine international sport's regulatory regime. A sound legal foundation for regulatory authority in sport is both desirable and necessary. Consequently, effective reform is urgently required to support the regime's legality and to give it legitimacy by resolving the regime's democratic deficit.

*Accounting for Profit for Breach of Contract* Katy Barnett, 2012-05-31 This book defends the view that an award of an account of profits (or 'disgorgement damages') for breach of contract will sometimes be justifiable, and fits within the orthodox principles and cases in contract law. However there is some confusion as to when such an award should be made. The moral bases for disgorgement damages are deterrence and punishment, which shape the remedy in important ways. Courts are also concerned with vindication of the claimant's performance interest, and it is pivotal in these cases that the claimant cannot procure a substitute performance via an award of damages or specific relief. The book argues that disgorgement damages should be available in two categories of case: 'second sale' cases, where the defendant breaches his contract with the claimant to make a more profitable contract with a third party; and 'agency problem' cases, where the defendant promises the claimant he will not do a certain thing, and the claimant finds it difficult to supervise the performance. Moreover, disgorgement may be full or partial, and 'reasonable fee damages' for breach of contract are best understood as partial disgorgement rather than 'restitutionary damages'. Equitable bars to relief should also be adopted in relation to disgorgement damages, as should allowances for skill and effort. This book will be of interest to contract and commercial lawyers, and will be especially valuable to anyone with an interest in contract remedies and restitution. It draws on case law in a number of common law jurisdictions, primarily England and Wales, and Australia.

*International Law Reports* E. Lauterpacht, C. J. Greenwood, 1985 *International Law Reports* is the only publication in the world wholly devoted to the regular and systematic reporting in English of courts and arbitrators, as well as judgements of national courts.
