**Canadian Criminal Justice** Curt Taylor Griffiths, Simon Nicholas Verdun-Jones, 1994

*Canadian Corrections* Curt Taylor Griffiths, 2003 *Canadian Corrections* offers a comprehensive introduction to correctional practices in Canada. This user-friendly text combines description, analysis of critical issues, current research and case studies to teach students the inner-workings of the Canadian correction system. The second edition includes all current research findings and up-to-date statistical material as well as new information on trends in Canadian corrections, the challenges of probation in the 21st century and the privatization of corrections in Canada.

*Charter Justice in Canadian Criminal Law* Don Stuart, 2010 The fifth edition had to be substantially revised to reflect the impact of recent Supreme Court of Canada bellweather decisions in *Grant* and the companion decisions in *Harrison* and *Suberu*. These decisions require a new approach to the meaning of detention for Charter purposes and to the remedy of exclusion of evidence under section 24(2) of the Charter. Much of the voluminous prior jurisprudence on section 24(2) over the past 27 years relating to the meaning and consequences of conscripting the accused in violation of the Charter is now of little moment. New clarifications and new questions are identified.--Pub. desc.

**Criminal Law and the Canadian Criminal Code** Richard Barnhorst, 2023

A History of Law in Canada, Vol. 1 Philip Girard, Jim Phillips, R. Blake Brown, 2018-01-01 A History of Law in Canada is the first of two volumes. Volume one begins at a time just prior to European contact and continues to the 1860s, while volume two will start with Confederation and end at approximately 2000. The history of law includes substantive law, legal institutions, legal actors, and legal culture. The authors assume that since 1500 there have been three legal systems in Canada - the Indigenous, the French, and the English. At all times, these systems have co-existed and interacted, with the relative power and influence of each being more or less dominant in different periods. The history of law cannot be treated in isolation, and this book examines law as a dynamic process, shaped by and affecting other histories over the long term. The law guided and was guided by economic developments, was influenced and moulded by the nature and trajectory of political ideas and institutions, and variously exacerbated or mediated intercultural exchange and conflict. These themes are apparent in this examination, and through most areas of law including land settlement and tenure, and family, commercial, constitutional, and criminal law.

*Criminal Injustice* Robynne Neugebauer, 2000-01-01 This volume examines racism within the process of criminal justice. In every society criminal justice plays a key role establishing social control and maintaining the hegemony of the dominant economic classes. The contributors to this anthology argue that the differential treatment of people of colour and First Nations peoples is due to systemic racism within all levels of the criminal justice system, which serves these dominant classes. Ideological and cultural changes are preconditions for the success of anti-racist policies and practices within the criminal justice system and within other state institutions. Recommendations for transformations in justice policy and practice are provided.

*CBT with Justice-Involved Clients* Raymond Chip Tafrate, Damon Mitchell, David J. Simourd, 2018-05-26 Grounded in science and clinical experience, this treatment planner provides essential tools for conducting cognitive-behavioral therapy (CBT) with justice-involved clients in a wide range of settings. Guidelines are presented for assessment, case formulation, and intervention to alter criminogenic thinking and destructive lifestyle patterns. With a focus on reducing recidivism, the book demonstrates ways to enhance clients' motivation for change and elicit prosocial values and life priorities. Practitioner-friendly features include case examples, recommended assessment instruments, over 35 sample scripts, and 27 reproducible forms and worksheets; the large-size format facilitates photocopying. Purchasers get access to a Web page where they can download and print the reproducible materials. Winner--Significant Contribution Award, Criminal Justice Psychology Section of the Canadian Psychological Association

Crime & Criminology Robert Douglas White, Fiona Haines, Lauren D. Eisler, 2008 This first Canadian edition of *Crime and Criminology: An Introduction* combines Canadian empirical research, policy, and legal issues to create a thoroughly Canadian text. Ideal for university and college students enrolled in introductory criminological theory courses, the book offers a solid foundation to criminology which unites traditional theories of crime with contemporary approaches and perspectives. By relating theory to everyday Canadian examples and events, students gain a solid grounding in the major theoretical considerations of the nature and causes of criminal behaviour. New discussion on ecology and environmental theories are unique to this edition. Updated references reflect recent research in emerging fields of criminology.

**Canadian Police Work** Curt Taylor Griffiths, 2012-03-15 This Introductory Policing text covers the history of policing in Canada, the current structure and operation of policing, the legal context and the power police officers exert and contemporary issues facing policing today. Bridging the gap between theory and application in the world of policing, Canadian Police Work surveys all of the current research in the area and uses practical examples and case studies to offer new insights from an interdisciplinary approach.

*Youth Criminal Justice Policy in Canada* Shahid Alvi, 2012-02-02 In the past ten years, much has changed in terms of youth justice policies in Canada as well as in the way Canadian society has evolved. Canada has a new Act governing youth crime, and there are indications that the Act will be revised again to make it tougher on youth in conflict with the law, a development reflecting what many scholars are calling the punitive turn in youth justice policies in Canada and elsewhere. At the same time, Canadian child poverty rates (which are strongly correlated with criminality) have remained high, despite a commitment, made by governments in 1989 to eradicate the problem by the year 2000. Immigration patterns have changed, and unemployment rates for young Canadians remain almost twice as high as those for adults. In this volume, *Youth Criminal Justice Policy in Canada: A Critical Introduction*, the author addresses these and other developments in relation to youth crime in Canada from a critical criminological perspective.

*Qualitative Research in Action* Deborah K. Van den Hoonaard, 2014-09-03 Series: a href=<http://www.oupcanada.com/tcs/Themes in Canadian Sociology/a> Qualitative Research in Action emphasizes that dynamism and flexibility are the cornerstones of qualitative research. Bringing the stages of research to life with a wide array of examples drawn from actual studies, the text guides students through the processes of finding inspiration and developing questions; gathering, coding, and analyzing data; and writing up results.

*Security and Risk Technologies in Criminal Justice: Critical Perspectives* Stacey Hannem, Carrie B. Sanders, Christopher J. Schneider, Aaron Doyle, Tony Christensen, 2019-01-02 *Security and Risk Technologies in Criminal Justice* takes students through the evolution of risk technology devices, processes, and prevention. This seminal text unpacks technology's influence on our understanding of governance and social order in areas of criminal justice, policing, and security. With a foreword by leading scholar Kevin Haggerty, the collection consists of three sections that explore the impact of big data, traditional risk practices, and the increased reliance on technology in criminal justice. Eight chapters offer diverse examples that are linked by themes of preventative justice, calculability of risk, the theatre and reality of technology, and the costs of justice. With both national and international appeal, this vital resource is ideal for undergraduate and graduate students in criminology, police studies, or sociology.

**The Canadian Criminal Justice System** Subhas Ramcharan, Thomas O'Reilly-Fleming, 2008 *The Canadian Criminal Justice System*, 2nd Edition, offers a comprehensive, clear and compelling overview of the criminal justice system in Canada today. This text contains strong pedagogical features, such as boxes on policing information and discussion topics, and also includes unique coverage of the theories of crime causation and law and social control, all written in a lively and engaging style.

**Introduction to Criminal Justice** Robert Bohm, Keith Haley, 2011-09-19 *Introduction to Criminal Justice* is the perfect text for students who are interested in pursuing a career in criminal justice and for those who simply want to learn more about the criminal justice system. The authors' combined experience of more than 50 years in teaching introduction to criminal justice as well as working in the field -- Bohm as a correctional officer and Haley as a police officer -- come through in their accessible yet comprehensive presentation. They make it easy for readers to understand that much of what the public knows about criminal justice in the United States is myth, and help students learn the truth about the U.S. criminal justice system.
