Native Studies Keywords Stephanie Nohelani Teves, Andrea Smith, Michelle Raheja, 2015-05-21 *Native Studies Keywords* is a genealogical project that looks at the history of words that claim to have no history. The end goal is not to determine which words are appropriate but to critically examine words that are crucial to Native studies, in hopes of promoting debate and critical interrogation.

Indigenous Writes Chelsea Vowel, 2017-01-10 Delgamuukw. Sixties Scoop. Bill C-31. Blood quantum. Appropriation. Two-Spirit. Tsilhqot'in. Status. TRC. RCAP. FNPOA. Pass and permit. Numbered Treaties. Terra nullius. The Great Peace... Are you familiar with the terms listed above? In *Indigenous Writes*, Chelsea Vowel, legal scholar, teacher, and intellectual, opens an important dialogue about these (and more) concepts and the wider social beliefs associated with the relationship between Indigenous Peoples and Canada. In 31 essays, Chelsea explores the Indigenous experience from the time of contact to the present, through five categories—Terminology of Relationships; Culture and Identity; Myth-Busting; State Violence; and Land, Learning, Law, and Treaties. She answers the questions that many people have on these topics to spark further conversations at home, in the classroom, and in the larger community. *Indigenous Writes* is one title in The Debwe Series.

New Zealand Identities James H. Liu, 2006-04-01 Fifteen writers with diverse personal and scholarly backgrounds come together in this collection to examine issues of identity, viewing it as both a departing point and end destination for the various peoples who have come to call New Zealand home. The essays reflect the diversity of thinking about identity across the social sciences as well as common themes that transcend disciplinary boundaries. Their explorations of the process of identity-making underscore the historical roots, dynamism, and plurality of ideas of national identity in New Zealand, offering a view not only of what has been but also what might be on the horizon.

Defiant Indigeneity Stephanie Nohelani Teves, 2018-03-14 “Aloha” is at once the most significant and the most misunderstood word in the Indigenous Hawaiian lexicon. For Kānaka Maoli people, the concept of “aloha” is a representation and articulation of their identity, despite its misappropriation and commandeering by non-Native audiences in the form of things like the “hula girl” of popular culture. Considering the way aloha is embodied, performed, and interpreted in Native Hawaiian literature, music, plays, dance, drag performance, and even ghost tours from the twentieth century to the present, Stephanie Nohelani Teves shows that misunderstanding of the concept by non-Native audiences has not prevented the Kānaka Maoli from using it to create and empower community and articulate its distinct Indigenous meaning. While Native Hawaiian artists, activists, scholars, and other performers have labored to educate diverse publics about the complexity of Indigenous Hawaiian identity, ongoing acts of violence against Indigenous communities have undermined these efforts. In this multidisciplinary work, Teves argues that Indigenous peoples must continue to embrace the performance of their identities in the face of this violence in order to challenge settler-colonialism and its efforts to contain and commodify Hawaiian Indigeneity.

Indigenous Religion(s) Siv Ellen Kraft, Bjørn Ola Tafjord, Arkotong Longkumer, Gregory D. Alles, Greg Johnson, 2020-06-24 What counts as 'indigenous religion' in today's world? Who claims this category? What are the processes through which local entities become recognisable as 'religious' and 'indigenous'? How is all of this connected to struggles for power, rights and sovereignty? This book sheds light on the contemporary lives of indigenous religion(s), through case studies from Sápmi, Nagaland, Talamanca, Hawai`i, and Gujarat, and through a shared focus on translations, performances, mediation and sovereignty. It builds on long term case-studies and on the collaborative comparison of a long-term project, including shared

fieldwork. At the center of its concerns are translations between a globalising discourse (indigenous religion in the singular) and distinct local traditions (indigenous religions in the plural). With contributions from leading scholars in the field, this book is a must read for students and researchers in indigenous religions, including those in related fields such as religious studies and social anthropology.

Gospel of Luke and Ephesians Terry M. Wildman, 2016-05-04 The first printing of the First Nations Version: New Testament. A new translation in English, by First Nations People for First Nations People.

Indigenous Peoples in International Law S. James Anaya, 2004 In this thoroughly revised and updated edition of the first book-length treatment of the subject, S. James Anaya incorporates references to all the latest treaties and recent developments in the international law of indigenous peoples. Anaya demonstrates that, while historical trends in international law largely facilitated colonization of indigenous peoples and their lands, modern international law's human rights program has been modestly responsive to indigenous peoples' aspirations to survive as distinct communities in control of their own destinies. This book provides a theoretically grounded and practically oriented synthesis of the historical, contemporary and emerging international law related to indigenous peoples. It will be of great interest to scholars and lawyers in international law and human rights, as well as to those interested in the dynamics of indigenous and ethnic identity.

Making Dictionaries William Frawley, Kenneth C. Hill, Pamela Munro, 2002-10-03 A collection of essays about the theory and practice of Native American lexicography, and more specifically the making of dictionaries, by some of the top scholars working in Native American language studies.

Britain B.C. Francis Pryor, 2003 Based on new archaeological finds, this book introduces a novel rethinking of the whole of British history before the coming of the Romans. So many extraordinary archaeological discoveries (many of them involving the author) have been made since the early 1970s that our whole understanding of British prehistory needs to be updated. So far only the specialists have twigged on to these developments; now, Francis Pryor broadcasts them to a much wider, general audience. Aided by aerial photography, coastal erosion (which has helped expose such coastal sites as Seahenge) and new planning legislation which requires developers to excavate the land they build on, archaeologists have unearthed a far more sophisticated life among the Ancient Britons than has been previously supposed. Far from being the wooded barbarians of Roman propaganda, we Brits had our own religion, laws, crafts, arts, trade, farms, priesthood and royalty. And the Scots, English and Welsh were fundamentally one and the same people.

Indigenous Storywork Jo-Ann Archibald, 2008-06-01 Indigenous oral narratives are an important source for, and

component of, Coast Salish knowledge systems. Stories are not only to be recounted and passed down; they are also intended as tools for teaching. Jo-ann Archibald worked closely with Elders and storytellers, who shared both traditional and personal life-experience stories, in order to develop ways of bringing storytelling into educational contexts. Indigenous Storywork is the result of this research and it demonstrates how stories have the power to educate and heal the heart, mind, body, and spirit. It builds on the seven principles of respect, responsibility, reciprocity, reverence, holism, interrelatedness, and synergy that form a framework for understanding the characteristics of stories, appreciating the process of storytelling, establishing a receptive learning context, and engaging in holistic meaning-making.

Decolonizing Methodologies Linda Tuhiwai Smith, 2016-03-15 'A landmark in the process of decolonizing imperial Western knowledge.' Walter D. Mignolo, Duke University To the colonized, the term 'research' is conflated with European colonialism; the ways in which academic research has been implicated in the throes of imperialism remains a painful memory. This essential volume explores intersections of imperialism and research - specifically, the ways in which imperialism is embedded in disciplines of knowledge and tradition as 'regimes of truth.' Concepts such as 'discovery' and 'claiming' are discussed and an argument presented that the decolonization of research methods will help to reclaim control over indigenous ways of knowing and being. Now in its eagerly awaited second edition, this bestselling book has been substantially revised, with new case-studies and examples and important additions on new indigenous literature, the role of research in indigenous struggles for social justice, which brings this essential volume urgently up-to-date.

Wild about Weeds Jack Wallington, 2019 Wild about Weeds is the must-have guide for modern gardeners that explains how to tame and nurture the most challenging of plants. Not all weeds are ugly uncontrollable brutes. Yes, they can be difficult and intimidating, but by learning how to grow weeds in unexpected ways you will become a better gardener with a more interesting garden. This book profiles over 50 weeds and shows you surprising ways to grow them, no matter what your garden type: from borders to boxes, sunny to shady, poor soil to rich, tropical to formal, Japanese-style to prairies. With interviews, tips and advice from celebrated gardeners, learn how to let weeds flourish without taking control. Gardening Book of the Year 2019 - The Times Best Gardening Reads of 2019 - Daily Mail Best Gardening Books of the Year - Gardens

Illustrated Top Garden Books of 2019 - The English Garden This well-argued advocacy for rebel plants shows why we should all be growing a few in our gardens. Gardens Illustrated In this excellent guide, garden designer Wallington rehabilitates the lowly weed...Wallington's humor (part of me - the rebellious, weed-like part! - likes weeds purely because people tell me not to) and passion for his subject shine through on every page. This new spin on an old subject will encourage both new and seasoned gardeners to look at what's already growing in their garden (and what could be) with fresh eyes. Publishers Weekly A lovely, practical gardening book that celebrates the beauty and ecological value of the gorgeous plants that we have been silly enough to overlook. Gardens with native 'weeds' are quintessentially English, tangled and tousled, and self-deprecating. Yet they burst with life, for these are plants that have evolved alongside our pollinators such as bees, and other insects that offer themselves to birds. Wild about Weeds sensibly distinguishes between the under-appreciated plants that conjure life into our gardens, and those potentially invasive species that are undesirable for good reason. Jonathan Drori CBE, author of Around the World in 80 Trees
