*Making Organizational Change Stick* Gabrielle O'Donovan, 2017-12-06 Business needs change. And it needs it in ways, at a rate and on a scale that is unprecedented. Current success rates for organizational change projects are dismal and are likely to remain so until organizations reinvent their approach to project delivery, and learn how to integrate Change Management and Project Management successfully. In this ground-breaking and innovative book, Gabrielle O'Donovan shows you how to design strategy, structures and processes to realize this integration and deliver sustainable and commercially powerful business change. She opens the book by providing the context, describing both the problem and the solution; how the disconnect between Project Management and Change Management feeds the 40-70 per cent failure rate and the laying of many a dud egg; and how cross-discipline integration efforts thus far have only addressed the tip of the iceberg, ignoring the subterranean cultural element that can divide or unite project teams. From there, she profiles Project Management and Change Management in turn and, crucially, the value and service propositions of these respective disciplines and the different theories, models and tools they employ. In the second half of the book she makes a 'Project and Change Partnership' (PCP) culture explicit and measurable, articulating those cultural assumptions that will support an effective alliance and that relate to those universal problems all organizations face regarding the macro environment, external adaptability and survival, and internal integration. From there, she describes how Project Managers and Change Managers can cooperate daily by dividing work packages and activities throughout the end-to-end project lifecycle. Project leaders who instill a PCP culture will benefit from the unique value that these interdependent disciplines bring to project delivery. It is they who will lay golden eggs and realize business benefits. *Making Organizational Change Stick* is written for project leaders, Change Managers, Project/Programme Managers, design thinkers, business architects and anyone concerned with business change.

**Transforming Strategic Decision-making through Finance Business Partnering** Jimoh K. Ololade, Xihui Haviour Chen, Victor Chang, 2024-09-09 This book addresses a significant research gap by delving into the Finance Business Partnering (FBP) model within the not-for-profit sector of the Gulf countries, with a specific emphasis on Qatar Foundation.

While an extensive body of literature explores the FBP model in developed nations, there exists a notable dearth of research in the Middle East and third-world countries. The book aims to rectify this imbalance by offering practical insights derived from Qatar Foundation, showcasing the advantages of adopting the FBP model. It goes beyond theoretical frameworks, presenting in-depth data analysis that substantiates the pivotal role of FBPs in supporting effective decision-making processes. By delving into essential concepts such as change management, contingency theory, and organizational culture, the book provides a comprehensive understanding of the factors influencing the successful adoption and implementation of the FBP model. Notably, it introduces practical examples and real-world applications to underscore the model's efficacy, making it a valuable resource for both scholars and practitioners in the fields of management and financial accounting.

EBOOK: Managing Organizational Change: A Multiple Perspectives Approach Ian Palmer, Richard Dunford, Gib Akin, 2008-07-16 Managing Organizational Change provides managers with an awareness of the issues involved in managing change, moving them beyond one-best way approaches and providing them with access to multiple perspectives that they can draw upon in order to enhance their success in producing organizational change. These multiple perspectives provide a theme for the text as well as a framework for the way each chapter outlines different options open to managers in helping them to identify, in a reflective way, the actions and choices open to them. Changing organizations is as messy as it is exhilarating, as frustrating as it is satisfying, as muddling-through and creative a process as it is a rational one. This book recognizes these tensions for those involved in managing organizational change. Rather than pretend that they do not exist it confronts them head on, identifying why they are there, how they can be managed and the limits they create for what the manager of organizational change can achieve.
