Crime, Shame and Reintegration John Braithwaite, 1989-03-23 Crime, Shame and Reintegration is a contribution to general criminological theory. Its approach is as relevant to professional burglary as to episodic delinquency or white collar crime. Braithwaite argues that some societies have higher crime rates than others because of their different processes of shaming wrongdoing. Shaming can be counterproductive, making crime problems worse. But when shaming is done within a cultural context of respect for the offender, it can be an extraordinarily powerful, efficient and just form of social control. Braithwaite identifies the social conditions for such successful shaming. If his theory is right, radically different criminal justice policies are needed - a shift away from punitive social control toward greater emphasis on moralizing social control. This book will be of interest not only to criminologists and sociologists, but to those in law, public administration and politics who are concerned with social policy and social issues.

**The Human Capital Imperative** Alan Coppin, 2017-08-18 Alan Coppin is a rare individual. His experience and insight span private and public sectors, charities, and the Armed Forces. The vital importance of human capital is the thread which has bound all this together. His book is a rich gold mine of data, research, wisdom and anecdote. —Sir Gerry Grimstone, chairman of Standard Life, deputy chairman of Barclays, non-executive director of Deloitte and lead non-executive director at the Ministry of Defence In this new book Alan Coppin, a leader with extensive cross-sector experience, draws on discussions with leaders in the public and private sectors, as well as from charities, the military and trade unions to offer you the ideas and practical applications that have proved effective in ensuring human capital is properly valued and managed. Most business decisions are based on lag data - historical reporting of what happened last month, last quarter or last year. It's solid, real and comforting. Unfortunately, it's also not a very good indicator of what might happen next. The best lead data - information with genuine predictive power - comes from understanding your people and what they can deliver. All major organizations claim that people are their greatest asset and yet, at the first sign of problems, the first action they take is to fire people. Why, because employees are also an organisation's biggest liability in terms of cost - and their cost is much easier to quantify than their value. But, like any asset, human capital will only deliver its full value if it is properly

understood, measured and managed. The author offers you the tools you need to take the issue beyond the HR department and satisfy the number crunchers in the boardroom. With their help, you can make human capital part of the normal financial metrics essential to running a successful organisation. Isn't it time you understood and managed the metrics that can predict your organization's future rather than relying on those that simply report on its past?

**Once a Warrior** Jake Wood,2020-11-10 The book that America needs right now. --Tom Brokaw, journalist and author of The Greatest Generation Jake Wood offers one of the most soaring definitions of service I've ever seen. --Maria Shriver, award-winning journalist and author of I've Been Thinking From Marine sniper Jake Wood, a riveting memoir of leading over 100,000 veterans to a life of renewed service, volunteering to battle, hurricanes, tornados, wildfires, pandemics, and civil wars, and inspiring onlookers as their unique military training saved lives and rebuilt our country. When Jake Wood arrived in the States after two grueling tours in Iraq and Afghanistan, he watched his unit lose more men to suicide than to enemy hands overseas. Reeling, Jake looked for a way to direct their restlessness towards a new mission--and put their formidable skills to good use. When an earthquake struck Haiti in 2010, Jake had his answer. He convinced several fellow veterans to join him on a ragtag mission to provide desperately needed aid. Despite the high stakes, they were able to untangle complex problems quickly and keep calm under pressure. In this raw, adrenaline-filled narrative, Jake recounts, how, over the past 10 years, he's built the disaster response organization Team Rubicon, and seen the work provide a lifeline back to purpose for the heroes among us. Not only do these intrepid volunteers race against the clock to aid communities after Hurricane Sandy, Hurricane Harvey, COVID-19, and hundreds of other disasters; they also fight for something just as important--each other. Once a Warrior provides a soaring look at what our veterans are capable of--and what might become of America's next greatest generation.

**Penal Culture and Hyperincarceration** Mr David Brown,Mr Mark Brown,Ms Eileen Baldry,Ms Melanie Schwartz,Professor Alex Steel,Professor Chris Cunneen,2013-11-28 What are the various forces influencing the role of the prison in late modern societies? What changes have there been in penalty and use of the prison over the past 40 years that have led to the re-valorization of the prison? Using penal culture as a conceptual and theoretical vehicle, and Australia as a case study, this book analyses international developments in penalty and imprisonment. Authored by some of Australia's leading penal theorists, the book examines the historical and contemporary influences on the use of the prison, with analyses of colonialism, post colonialism, race, and what they term the 'penal/colonial complex,' in the construction of imprisonment rates and on the development of the phenomenon of hyperincarceration. The authors develop penal culture as an explanatory framework for continuity, change and difference in prisons and the nature of contested penal expansionism. The influence of transformative concepts such as 'risk management', 'the therapeutic prison', and 'preventative detention' are explored as

aspects of penal culture. Processes of normalization, transmission and reproduction of penal culture are seen throughout the social realm. Comparative, contemporary and historical in its approach, the book provides a new analysis of penalty in the 21st century.

*Markets in Vice, Markets in Virtue* John Braithwaite,2005 What have the market forces of supply and demand to do with making the tax system more equitable?

*Bullying in Schools and what to do about it* Ken Rigby,2007-09-01 Using up-to-date studies, *Bullying in Schools* helps us to understand the nature of bullying and why it so often takes place in schools. Importantly, it examines and evaluates what schools can do to promote more positive peer relationships within the school community and take effective and sustainable action to deal with problems that may arise. Teachers, parents, school leaders, policy makers, and health professionals will find it invaluable and empowering.

Corporate Fraud and Corruption M. Krambia-Kapardis,2016-04-08 Recent large-scale corporate collapses, such as Lehman Brothers, Enron, Worldcom, and Parmalat, highlight the implosion of traditional models of fraud prevention. By focusing on risk factors at the micro level, they have failed to take into account the broader context in which external auditors operate as well as the crucial importance of such factors as corruption, organizational culture, corporate social responsibility, ethical values, governance, ineffective regulation, and a lack of transparency. *Corporate Fraud and Corruption* engages readers by showing how evidence-based, multi-level micro and macro analysis of fraud risk and protective factors inform effective fraud prevention, in turn minimizing financial catastrophes. Krambia-Kapardis focuses on her own empirical research into the aetiology of fraud to showcase a holistic approach to fraud prevention. This book also features major case studies from the United States, the United Kingdom, and Australia.

*COVID in the Islands: A comparative perspective on the Caribbean and the Pacific* Yonique Campbell,John Connell,2021-10-29 This book provides the first wide-ranging account of the impact of the COVID-19 pandemic in two contrasting island regions - the Caribbean and the Pacific - and in several islands and island states. It traces the complexity of effects and responses, at different scales, through the first critical year. Written by a range of scholars and practitioners working in the region the book focuses on six key themes: public health; the economies (notably the collapse of tourism, the revival of local agriculture and fishing, and the rebirth of self-reliance, and even barter); the rescue by remittances; social tensions and responses; public policy; and future 'bubbles' and regional connections. Even with marine borders that excluded the virus all island states were affected by COVID-19 because of a considerable dependence on tourism - prompting urgent challenges for governance, economic management and development, as small states sought to balance lives against livelihoods in search of revitalisation or even a 'new normal'.

**Framing the Global Economic Downturn** Paul 't Hart, Karen Tindall, 2009-09-01 The global economic downturn that followed the collapse of major US financial institutions is no doubt the most significant crisis of our times. Its effects on corporate and governmental balance sheets have been devastating, as have been its impacts on the employment and well being of tens of millions of citizens. It continues to pose major challenges to national policymakers and institutions around the world. Managing public uncertainty and anxiety is vital in coping with financial crises. This requires not just prompt action but, most of all, persuasive communication by government leaders. At the same time, the very occurrence of such crises raises acute questions about the effectiveness and robustness of current government policies and institutions. With the stakes being so high, defining and interpreting what is going on, how and why it happened, and what ought to be done now become key questions in the political and policy struggles that crises invariably unleash. In this volume, we study how heads of government, finance ministers and national bank governors in eight countries as well as the EU engage in such 'framing contests', and how their attempts to interpret the cascading events of the economic downturn were publicly received. Using systematic content analysis of speeches and media coverage, this volume offers a unique comparative assessment of public leadership in times of crisis.

Writing Emotions Ingeborg Jandl, Susanne Knaller, Sabine Schönfellner, Gudrun Tockner, 2018-07-31 After a long period of neglect, emotions have become an important topic within literary studies. This collection of essays stresses the complex link between aesthetic and non-aesthetic emotional components and discusses emotional patterns by focusing on the practice of writing as well as on the impact of such patterns on receptive processes. Readers interested in the topic will be presented with a concept of aesthetic emotions as formative both within the writing and the reading process. Essays, ranging in focus from the beginning of modern drama to digital formats and theoretical questions, examine examples from English, German, French, Russian and American literature. Contributors include Angela Locatelli, Vera Nünning, and Gesine Lenore Schiewer.

Annuity Markets Edmund Cannon, Ian Tonks, 2008-10-02 The Pension Crisis concerns the changing demographic profile of the economy: an increasing number of elderly persons supported by fewer young people. Governments around the world are responding to this impending crisis by shifting their pension policies away from pay-as-you-go systems towards individual savings schemes. These savings need to be converted into a pension at retirement, and annuities provide this function. This book is a comprehensive study of annuity markets. The book starts by outlining the context of public policy towards pensions, and explains the different types of annuities available, focusing on the UK which has the largest annuity market in the world. It examines how annuities are priced, and describes the techniques of mortality measurement. As a background, it provides a history of annuities, and the experience of annuity markets in a number of other countries. The book outlines the economic theory behind annuities, and explains how annuities insure consumers against longevity risks. It goes on to describe how annuities markets function: how they work, and whether they are efficient, leading onto a discussion of the annuity puzzle.

The book concludes by discussing the regulatory framework, assets available to back annuity liabilities, and recent developments in annuity markets.

**The Life of Animals in Japanese Art** Robert T. Singer, Masatomo Kawai, 2019-05-21 A sweeping exploration of animals in Japanese art and culture across sixteen centuries Few countries have devoted as much artistic energy to the depiction of animal life as Japan. Drawing upon the country's unique spiritual heritage, rich literary traditions, and currents in popular culture, Japanese artists have long expressed admiration for animals in sculpture, painting, lacquerwork, ceramics, metalwork, textiles, and woodblock prints. Real and fantastic creatures are meticulously and beautifully rendered, often with humor and whimsy. This beautiful book celebrates this diverse range of work, from ancient fifth-century clay sculpture to contemporary pieces. The catalog is organized into themes, including the twelve animals of the Japanese zodiac; animals in Shinto and Buddhism; animals and samurai; land animals, winged creatures, and creatures of the river and sea; and animals in works of humor and parody. Contributors address such issues as how animals are represented in Japanese folklore, myth, religion, poetry, literature, and drama; the practice of Japanese painting; and the relationship between Japanese painters and scientific study. Featuring some 300 masterpieces from public and private collections, many published for the first time, *The Life of Animals in Japanese Art* is a sumptuous celebration of the connections between the natural world and visual and creative expression. Published in association with the National Gallery of Art, Washington, DC Exhibition Schedule National Gallery of Art, Washington, DC May 5-July 28, 2019 Los Angeles County Museum of Art September 8-December 8, 2019

**Dead by Sunset** Ann Rule, 2000-02-15 From bestselling author Ann Rule comes the true story of Bradly Morris Cunningham, the handsome and successful entrepreneur who married five different women and destroyed each of them. The author of eight New York Times bestsellers, Ann Rule first won nationwide acclaim with *The Stranger Beside Me*, about serial killer Ted Bundy. Her Crime Files volumes, based on fascinating case histories, have assured her reputation as our premier chronicler of crime. Now the former Seattle policewoman brings us the horrific account of a charismatic man adored by beautiful and brilliant women who always gave him what he wanted...sex, money, and even their very lives. When attorney Cheryl Keeton's brutally bludgeoned body was found in her van in the fast lane of an Oregon freeway, her husband, Brad

Cunningham, was the likely suspect. But there was no solid evidence linking him to the crime. He married again, for the fifth time, and his stunning new wife, a physician named Sara, adopted his three sons. They all settled down to family life on a luxurious estate. But gradually, their marriage became a nightmare... In this gripping account of Cheryl's murder, Ann Rule takes us from Brad's troubled boyhood to one of the most bizarre trials in legal history, uncovering multiple marriages, financial manipulations, infidelities, and monstrous acts of harassment and revenge along the way. *Dead By Sunset* is Ann Rule at her riveting best.
