Translation issues addressed include cultural differences, genre, and revision and editing. A Tutor's Handbook is available, which contains invaluable guidance on using the course.

**Crime in the Art and Antiquities World** Stefano Manacorda, Duncan Chappell, 2011-02-26 The theft, trafficking, and falsification of cultural property and cultural heritage objects are crimes of a particularly complex nature, which often have international ramifications and significant economic consequences. Organized criminal groups of various types and origins are involved in these illegal acts. The book Crime in the Art and Antiquities World has contributions both from researchers specializing in the illegal trafficking of art, and representatives of international institutions involved with prevention and detection of cultural property-related crimes, such as Interpol and UNESCO. This work is a unique and useful reference for scholars and private and public bodies alike. This innovative volume also includes an Appendix of the existing legal texts, i.e. international treaties, conventions, and resolutions, which have not previously been available in a single volume. As anyone who has undertaken research or study relating to the protection of cultural heritage discovers one of the frustrations encountered is the absence of ready access to the multi- various international instruments which exist in the field. Since the end of the Second World War these instruments have proliferated, first in response to increasing recognition of the need for concerted multinational action to give better protection to cultural property during armed conflict as well as ensuring the repatriation of cultural property looted during such conflict. Thus the international community agreed in 1954 upon a Convention for the Protection of Cultural Property in the Event of Armed Conflict. That Convention, typically referred to as the Hague Convention of 1954, is now to be found reproduced in the Appendix to this book (Appendix I) together with 25 other important and diverse documents that we believe represent a core of the essential international sources of reference in this subject area. In presenting these documents in one place we hope that readers will now experience less frustration while having the benefit of supplementing their understanding and interpretation of the various instruments by referring to

individual chapters in the book dealing with a particular issue or topic. For example, Chapter 9 by Mathew Bogdanos provides some specific and at times rather depressing descriptions of the application in the field of the Hague Convention 1954, and its Protocols (Appendices II and III), to the armed conflict in Iraq. Reference may also be had to the resolution of the UN Security Council in May 2003 (Appendix VI) urging Member States to take appropriate steps to facilitate the safe return of looted Iraqi cultural property taken from the Iraq National Museum, the National Library and other locations in Iraq. Despite such pleas the international antiquities market seems to have continued to trade such looted property in a largely unfettered manner, as demonstrated by Neil Brodie in Chapter 7. Fittingly, as referred to in the Preface to this book, the last document contained in the Appendix (Appendix 26) is the “Charter of Courmayeur”, formulated at a ground breaking international workshop on the protection of cultural property conducted by the International Scientific and Professional Advisory Council (ISPAC) to the United Nations Crime Prevention and Criminal Justice Program in Courmayeur, Italy, in June 1992. The Charter makes mention of many of the instruments contained in the Appendix while also foreshadowing many of the developments which have taken place in the ensuing two decades designed to combat illicit trafficking in cultural property through international collaboration and action in the arena of crime prevention and criminal justice.

**Venice and the Veneto during the Renaissance: the Legacy of Benjamin Kohl** Knapton, Michael, Law, John E., Smith, Alison, 2014 Benjamin G. Kohl (1938-2010) taught at Vassar College from 1966 till his retirement as Andrew W. Mellon Professor of the Humanities in 2001. His doctoral research at The Johns Hopkins University was directed by Frederic C. Lane, and his principal historical interests focused on northern Italy during the Renaissance, especially on Padua and Venice. His scholarly production includes the volumes *Padua under the Carrara, 1318-1405* (1998), and *Culture and Politics in Early Renaissance Padua* (2001), and the online database *The Rulers of Venice, 1332-1524* (2009). The database is eloquent testimony of his priority attention to historical sources and to their accessibility, and also of his enthusiasm for collaboration and sharing among scholars.

Renaissance Vision from Spectacles to Telescopes Vincent Ilardi, 2007 Deals with the history of eyeglasses from their invention in Italy ca. 1286 to the appearance of the telescope three cent. later. By the end of the 16th cent. eyeglasses were as common in western and central Europe as desktop computers are in western developed countries today. Eyeglasses served an important technological function at both the intellectual and practical level, not only easing the textual studies of scholars but also easing the work of craftsmen/small bus. During the 15th cent. two crucial developments occurred: the ability to grind convex lenses for various levels of presbyopia and the ability to grind concave lenses for the correction of

myopia. As a result, eyeglasses could be made almost to prescription by the early 17th cent. Illus.

There are 100 beautifully detailed maps illustrating the movements of people and the development of nations, and there are over 100 color photographs and illustrations of archaeological sites and artifacts. **If Venice Dies** Salvatore Settis,2016-09-10 In the tradition of Jane Jacobs' The Death and Life of Great American Cities comes an urgent plea from internationally renowned art historian Salvatore Settis to preserve Venice's future. What is Venice worth? To whom does this urban treasure belong? Venetians are increasingly abandoning their hometown — there's now only one resident for every 140 visitors — and Venice's fragile fate has become emblematic of the future of historic cities everywhere as it capitulates to tourists and those who profit from them. In If Venice Dies, a fiery blend of history and cultural analysis, internationally renowned art historian Salvatore Settis argues that "hit-and-run" visitors are turning landmark urban settings into shopping malls and theme parks. He warns that Western civilization's prime achievements face impending ruin

from mass tourism and global cultural homogenization. This is a passionate plea to secure Venice's future, written with consummate authority, wide-ranging erudition, and élan.

*Almarina* Valeria Parrella,2022-05-12 'One of the most beautiful books published in recent years: an intense, poignant story' Caterina Bonvicini Can a prison free those who enter? Nisida, moored like a boat in the Mediterranean, is a small island nestled between Capri and Bagnoli, off the coast of Naples. Each day, through the early morning light, Elisabetta Maiorano travels across the city, passes by the guards on the way into the detention centre, hands over her bag and arrives at her classroom. All thoughts are suspended once inside. Usually Elisabetta hasn't spoken to anyone since the day before; her only reason for living to teach mathematics to the group of young inmates who arrive not long after she does. But one day, Almarina shows up and everything changes. She is Romanian and bears the signs of her personal history on her body. Together, closed up in a small classroom, a true island within an island, Elisabetta and Almarina discover a possible pathway to freedom. Warm and intimate, intense and political, Valeria Parrella touches our emotions, giving voice to a loneliness that is universal. Almarina is about finding love in unexpected places, about atonement, forgetting and starting over. But mostly it is about two women learning how to live again. Translated by Alex Valente

*Politics in the Age of Austerity* Wolfgang Streeck,Armin Schäfer,2013-05-09 In a world of increasing austerity measures, democratic politics comes under pressure. With the need to consolidate budgets and to accommodate financial markets, the responsiveness of governments to voters declines. However, democracy depends on choice. Citizens must be able to influence the course of government through elections and if a change in government cannot translate into different policies, democracy is incapacitated. Many mature democracies are approaching this situation as they confront fiscal crisis. For almost three decades, OECD countries have - in fits and starts - run deficits and accumulated debt. As a result, an ever smaller part of government revenue is available today for discretionary spending and social investment and whichever party comes into office will find its hands tied by past decisions. The current financial and fiscal crisis has exacerbated the long-term shrinking government discretion; projects for political change have lost credibility. Many citizens are aware of this situation: they turn away from party politics and stay at home on Election Day. With contributions from leading scholars in the forefront of sociology, politics and economics, this timely book will be of great interest to students and scholars throughout the social sciences as well as general readers.
