## Philip Roth

**The Work of Art** Gérard Genette, 1997 What art is? its very nature? is the subject of this book by one of the most distinguished continental theorists writing today. Informed by the aesthetics of Nelson Goodman and referring to a wide range of cultures, contexts, and media, *The Work of Art* seeks to discover, explain, and define how art exists and how it works. To this end, Gérard Genette explores the distinction between a work of art's immanence? its physical presence? and transcendence? the experience it induces. That experience may go far beyond the object itself. Genette situates art within the broad realm of human practices, extending from the fine arts of music, painting, sculpture, and literature to humbler but no less fertile fields such as haute couture and the culinary arts. His discussion touches on a rich array of examples and is bolstered by an extensive knowledge of the technology involved in producing and disseminating a work of art, regardless of whether that dissemination is by performance, reproduction, printing, or recording. Moving beyond examples, Genette proposes schemata for thinking about the different manifestations of a work of art. He also addresses the question of the artwork's duration and mutability.

Operation Shylock Philip Roth, 2022-09-21 WINNER OF THE PEN/FAULKNER AWARD • From the Pulitzer Prize-winning author of *American Pastoral*—a fiendishly imaginative book that features Israeli intelligence agents, Palestinian exiles, an accused war criminal, and an enticing charter member of an organization called Anti-Semites Anonymous One of Roth's grand inventions.... [He is] a comic genius. —The New York Review of Books In this book (which may or may not be fiction), Philip Roth meets a man who may or may not be Philip Roth. Because someone with that name has been touring Israel, promoting a bizarre reverse exodus of the Jews. Roth is intent on stopping him, even if that means impersonating his own impersonator. With excruciating suspense, unfettered philosophical speculation, and a wild cast of characters, *Operation Shylock* barrels across the frontier between fact and fiction, seriousness and high comedy, history and nightmare.

**Mirror for the Muslim Prince** Mehrzad Boroujerdi, 2013-05-01 In this volume, a group of distinguished scholars reinterpret concepts and canons of Islamic thought in Arab, Persian, South Asian, and Turkish traditions. They demonstrate that there is no unitary Islamic position on important issues of statecraft and governance. They recognize that Islam is a discursive site marked by silences, agreements, and animated controversies. Rigorous debates and profound disagreements among Muslim theologians, philosophers, and literati have taken place over such questions as: What is an Islamic state? Was

the state ever viewed as an independent political institution in the Islamic tradition of political thought? Is it possible that a religion that places an inordinate emphasis upon the importance of good deeds does not indeed have a vigorous notion of public interest or a systematic theory of government? Does Islam provide an edifice, a common idiom, and an ideological mooring for premodern and modern Muslim rulers alike? The nuanced reading of the Islamic traditions provided in this book will help future generations of Muslims contemplate a more humane style of statecraft.

*Eye of the Century* Francesco Casetti, 2008-05-14 Is it true that film in the twentieth century experimented with vision more than any other art form? And what visions did it privilege? In this brilliant book, acclaimed film scholar Francesco Casetti situates the cinematic experience within discourses of twentieth-century modernity. He suggests that film defined a unique gaze, not only because it recorded many of the century's most important events, but also because it determined the manner in which they were received. Casetti begins by examining film's nature as a medium in an age obsessed with immediacy, nearness, and accessibility. He considers the myths and rituals cinema constructed on the screen and in the theater and how they provided new images and behaviors that responded to emerging concerns, ideas, and social orders. Film also succeeded in negotiating the different needs of modernity, comparing and uniting conflicting stimuli, providing answers in a world torn apart by conflict, and satisfying a desire for everydayness, as well as lightness, in people's lives. The ability to communicate, the power to inform, and the capacity to negotiate—these are the three factors that defined film's function and outlook and made the medium a relevant and vital art form of its time. So what kind of gaze did film create? Film cultivated a personal gaze, intimately tied to the emergence of point of view, but also able to restore the immediacy of the real; a complex gaze, in which reality and imagination were combined; a piercing gaze, achieved by machine, and yet deeply anthropomorphic; an excited gaze, rich in perceptive stimuli, but also attentive to the spectator's orientation; and an immersive gaze, which gave the impression of being inside the seen world while also maintaining a sense of distance. Each of these gazes combined two different qualities and balanced them. The result was an ever inventive synthesis that strived to bring about true compromises without ever sacrificing the complexity of contradiction. As Casetti demonstrates, film proposed a vision that, in making opposites permeable, modeled itself on an oxymoronic principle. In this sense, film is the key to reading and understanding the modern experience.

**La Romanie Génoise: (XIIe - Début Du XVe Siècle) ,1978**

Obsolete Objects in the Literary Imagination Francesco Orlando, 2006 Translated here into English for the first time is a monumental work of literary history and criticism comparable in scope and achievement to Eric Auerbach's *Mimesis*. Italian critic Francesco Orlando explores Western literature's obsession with outmoded and nonfunctional objects (ruins, obsolete machinery, broken things, trash, etc.). Combining the insights of psychoanalysis and literary-political history, Orlando traces this obsession to a turning point in history, at the end of eighteenth-century industrialization, when the functional becomes

the dominant value of Western culture. Roaming through every genre and much of the history of Western literature, the author identifies distinct categories into which obsolete images can be classified and provides myriad examples. The function of literature, he concludes, is to remind us of what we have lost and what we are losing as we rush toward the future.

*Logo Mondo* Hitoshi Nagasawa,2007 This book is divided into categories, including typographic, icons, and illustrations, and further classified into categories, like Hip-Hop, Neo-Baroque, kanji, kana, psychedelic, 60s to 70s, corporate, erotic, and other distinct groups, this book features more than 1,000 works, selected from thousands of entries submitted from hundreds of designers worldwide.

*The Wall of the Earth* Giorgio Caproni,1992 The work of Giorgio Caproni has been translated into French, German, and Chinese, among others, but this collection is his first book-length English publication. His works are finely tuned to modern man's preoccupations with existence in a world deprived of certainties (for example, the existence or inexistence of God). Most are touched by experiences such as the Second World War and its atrocities, the Resistance Movement, or the death of loved ones, events that represent the conviction of a subject that will do its best to survive all adversity, uncompromised -- from the Introduction by Pasquale Verdicchio

**Carlo Pisacane's La Rivoluzione** Carlo Pisacane,2010-10-04 Pisacane has been described in English text books and by a number of historians as a key person and in one case as 'one of the most intelligent leaders' of the Risorgimento, yet little has been written about him in English. This work therefore aims to introduce this soldier, writer, freedom-fighter and martyr of the Sapri Expedition to an English readership. The introduction tells us about Pisacane's life and career, including his part alongside Mazzini and Garibaldi in the Roman Republic. It also surveys his written work which evidenced the development of his political thinking and culminated in his *Saggi-storici-politici-militari sull'Italia*, published posthumously between 1858-1860. *La Rivoluzione* later published separately was a call to avoid the mistakes of earlier bourgeois revolutions, insisting on the need for an overtly socialist programme to involve the masses in a specifically Italian revolution. Finally, the introduction attempts to set the translated work in the context of post-Enlightenment political thought, as well as contrasting Pisacane's approach with the mainstream nationalist and republican movements in Italy.

*Various Thoughts on the Occasion of a Comet* Pierre Bayle,2000-05-18 A new translation of Pierre Bayle's first great work, which undermines the influence of superstition in political life and laid the groundwork for the separation of church and state.

*Emotional and Ethical Challenges for Field Research in Africa* S. Thomson,A. Ansoms,J. Murison,2012-11-13 Academic literature rarely gives an account of the ethical challenges and emotional pitfalls the researcher is confronted with before, during and after being in the field. Giving personal accounts, the authors explore some of the challenges one can face when engaging in local-level research in difficult situations.

**Re-Imagining Rwanda** Johan Pottier,2002-09-26 Pottier examines how a persuasive analysis of the situation in Rwanda exacerbated the original crisis.

**Introduction to the Analysis of the Literary Text** Cesare Segre,Tomaso Kemeny,1988

**A Critical Theory of Literature** Costanzo Di Girolamo,1981

**A manual of book-keeping for public institutions** James William Palmer,1878

**Priapeia** Leonard Smithers,2017-05-25 The Priapeia is a collection of ninety-five poems in various meters on subjects pertaining to the phallic god Priapus. It was compiled from literary works and inscriptions on images of the god by an unknown editor, who composed the introductory epigram. From their style and versification it is evident that the poems belong to the classical period of Latin literature. Some, however, may be interpolations of a later period. These poems were posted upon statues of Priapus that stood in the midst of gardens as the protector of the fruits that grew therein. These statues were often crude carvings made from tree trunks. They roughly resembled the form of a man with a huge phallus. The statues also promoted the gardens' fertility. The verses are attributed variously to Virgil, Ovid, and Domitius Marsus. However, most authorities on the matter regard them to have been the work of a group of poets who met at the house of Maecenas, amusing themselves by writing tongue-in-cheek tributes to the garden Priapus. (Maecenas was Horace's patron.) Others, including Martial and Petronius, were thought to have added more verses in imitation of the originals.

Hypnosis Theodore Xenophon Barber,1969 This work offers a particular approach to hypnotism that explains the phenomena associated with the word hypnotism without assuming a special hypnoid state. The author shows that the capacity to be hypnotised results from nothing more unusual than having a positive attitude to the test situation, high motivation to perform maximally, and strong expectations of enactment of unusual behaviours. The book aims to bring rigour to its review of empirical data and discussion.
